University of Gdańsk

Subject card

Subject name and code	Bachelor's Seminar, PG_00205158						
Field of study	International Economic Relations						
Date of commencement of studies	October 2026		Academic year of realisation of subject		2028/2029		
Education level	Bachelor's studies		Subject group		Obligatory subject group in the field of study Optional subject group Subject group related to scientific research in the field of study		
Mode of study	full-time studies		Mode of delivery		at the university		
Year of study	3		Language of instruction		Polish		
Semester of study	5		ECTS credits		2.0		
Learning profile	academic		Assessment form		credit		
Conducting unit	Faculty of Economics -> Rector						
Name and surname of lecturer (lecturers)	Subject supervisor		dr Monika Grottel				
	Teachers						
Lesson types	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	0.0	0.0	0.0	0.0	30.0	30
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	30		4.0		16.0	50
Subject objectives	The aim of the bachelor's seminar is to provide students with knowledge, skills and methodological competences that allow them to solve economic problems, including those related to the chosen specialization, and to create scientific texts based on publications and empirical data, as well as to write a bachelor's thesis text in accordance with the faculty instructions.						

Learning outcomes

Course outcome	Subject outcome	Method of verification
[MSGL3_W10] has an advanced understanding of selected methods and tools, including IT tools and data acquisition techniques, which make it possible to describe and analyse economic entities operating on the international market; knows the processes and phenomena occurring in them and between them, and processes supporting decision-making	The student demonstrates knowledge and understanding of selected methods and tools, including IT tools and data collection techniques, used to describe and analyze business entities operating in international markets. The student also understands the processes and phenomena occurring within and between such entities, as well as the processes supporting decision-making.	[SW1] oral statement/ conversation/discussion [SW3] text preparation/written work
[MSGL3_U04] uses the acquired theoretical knowledge in economics to analyse and evaluate the operation of economic entities on the international market, with particular emphasis on the European Union market	The student applies theoretical knowledge in the field of economics to analyze and assess the operations of business entities in international markets, with particular focus on the European Union market.	[SU1] oral statement/conversation/ discussion [SU3] text preparation/written work [SU8] observation of student's independent or team work
[MSGL3_U15] can appropriately identify priorities, plan and organise tasks related to their implementation, as well as monitor and evaluate progress	The student is able to establish priorities in the thesis preparation process and to plan and organize tasks related to its implementation, as well as monitor and evaluate progress toward achieving the intended objectives.	[SU3] text preparation/written work [SU8] observation of student's independent or team work
[MSGL3_K01] is ready to recognise the importance of knowledge in the field of economics in the process of identifying and solving economic problems and to consult experts in case of difficulties in solving them independently	The student recognizes the significance of knowledge in economics for identifying and addressing research problems and is able to seek the opinions of experts when such problems cannot be solved independently.	[SK3] text preparation/written work [SK8] observation of student's independent or team work
[MSGL3_W14] knows and understands terms and principles of intellectual (industrial) property protection and copyright law	The student demonstrates knowledge and understanding of the concepts and principles relating to the protection of intellectual property rights (including industrial property rights) and copyright law.	[SW3] text preparation/written work
[MSGL3_K05] correctly identifies, diagnoses and solves dilemmas and various options of solutions related to the profession	The student is able to accurately identify, analyze, and resolve dilemmas arising in the course of preparing a diploma thesis, and to assess and choose between different possible solutions.	[SK1] oral statement/conversation/ discussion [SK3] text preparation/written work [SK8] observation of student's independent or team work

Subject contents

1. Formulating important problems in the field of economics, especially in the scope of the issues of the chosen specialization, which may constitute the subject of research in the bachelor's thesis.
2. Formulating the purpose of the work (research question/research thesis).
3. Selection and analysis of sources of knowledge appropriate for explaining a given problem while maintaining the principles of intellectual property protection.
4. Principles of the construction of the bachelor's thesis.
5. Description and diagnosis of the research subject.
6. Detailed analysis (structure, dynamics, barriers, cause-effect relationships, effects).
7. Creation of development scenarios, forecasts or strategies in relation to the issues studied.
8. Editing the text of the bachelor's thesis (scientific language of the study, bibliographic description, error control).
9. Preparation of tables and graphic illustrations.
10. Preparation of the bibliography of the work, list of tables, drawings and charts in accordance with the faculty template and instructions.
11. Principles of writing the introduction and conclusion.
12. Preparation of a summary - summary of the bachelor's thesis in English.
13. Intellectual property protection and copyright.
