University of Gdańsk

Subject card

Subject name and code	Geographical Determinants of Spatial Panning - lecture, PG_00194281						
Field of study	Geography						
Date of commencement of studies	October 2026		Academic year of realisation of subject		2028/2029		
Education level	Bachelor's studies		Subject group		Obligatory subject group in the field of study Optional subject group Subject group related to scientific research in the field of study		
Mode of study	full-time studies		Mode of delivery		at the university		
Year of study	3		Language of instruction		Polish		
Semester of study	5		ECTS credits		2.0		
Learning profile	academic		Assessment form		credit		
Conducting unit	Institute of Socio-Economic Geography and Spatial Management -> Faculty of Social Sciences -> Rector						
Name and surname of lecturer (lecturers)	Subject supervisor		dr hab. Oleksandr Radchenko				
	Teachers						
Lesson types	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	20.0	0.0	0.0	0.0	0.0	20
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	20		2.0		28.0	50
Subject objectives	Awareness of the practical role of geography in shaping public space						

Learning outcomes

Course outcome	Subject outcome	Method of verification
[GEOGRL3-W03] knows and understands on advanced level social, economic, and political diversity in the world, as well as the social, economic, and political characteristics of countries and regions, especially northern Poland and the Pomeranian Province; understanding of socio-economic changes taking place in the modern world	K_W03: knows in an advanced degree the processes and phenomena occurring in the geographical environment, shaping the various functions of geographical space, program content A1-A10	[SW2] presentation/project/paper/ report
[GEOGRL3-W05] knows the interactions between the natural and anthropogenic environments on various spatial and temporal scales, with particular emphasis on the processes and phenomena occurring in the area of the South Baltic Coast and Lake District and the conditions of these interactions	K_W05: has an advanced understanding of the interactions between the natural and anthropogenic environments that influence the shaping of space curriculum content A1-A10	[SW2] presentation/project/paper/ report
[GEOGRL3-W04] has advanced knowledge of the Earth's geographical environment, understood as a unified system of interconnected and interacting components; its diversity, functioning, and dynamics of change, including the interaction of environmental components in the area of the South Baltic Coast and Lake District	K_W04: knows natural and anthropogenic factors affecting the formation of space at different spatial scales curricular content A1-A10	[SW2] presentation/project/paper/ report

Subject contents

1. Links between geography and socio-economic reality2 Examples of practical function of geography - informational function3 Examples of practical function of geography - explanatory and theoretical function4 Examples of practical function of geography - diagnostic function5 Examples of practical function of geography - decision-making function6 Examples of practical function of geography - cultural and educational function7 Conflicts in the management of environmental goods8 The role of geography in resolving conflicts in space9. External determinants of the role of geography in the formation of space10. Internal determinants of the role of geography in shaping space

Prerequisites and co-requisites

Assessment methods and criteria

Subject passing criteria	Passing threshold	Percentage of the final grade
presentation evaluation	51.0%	100.0%
