Subject objectives

The purpose of the course is to familiarize students with the practical aspects of the market economy. In the further course of study, the knowledge gained in class will facilitate students' understanding of the legal institutions that normalize phenomena and processes of an economic nature. At the same time, understanding the importance and complexity of economic processes will allow students in the future to participate more consciously in social and economic life.

Learning outcomes

Course outcome	Subject outcome	Method of verification
[ADMINL3_U04] is able to plan and organize his/her own work and is prepared to actively participate in teams involved in the performance of administrative activities.	-	[SU1] oral statement/conversation/ discussion
[ADMINL3_W05] is familiar with and understands the current dilemmas concerning the functioning of public administration and activities undertaken within the sphere of the state and administration in relation to substantive, procedural, and constitutional law institutions. Moreover, he/she identifies the fundamental phenomena occurring within the market economy and economics, including knowledge and understanding of the basic principles governing the establishment and development of various forms of entrepreneurship.	-	[SW4] test/exam - oral or written [SW1] oral statement/ conversation/discussion
[ADMINL3_K01] being aware of the role of knowledge in solving problems related to the organization and functioning of administration, as well as the application of law in selected domains of social and economic life, they are prepared to critically assess their own knowledge and the content they receive, and also recognize the need to rely on expert knowledge—including doctrinal views and case law—when encountering difficulties in independently resolving a problem.	-	[SK4] test/exam - oral or written
