[SK7] entries and opinions in the internship diary

Subject contents

As part of the internship, students should be able to learn about and actively participate in the implementation of such activities/functions of the entity as:

- planning the unit's activities (strategy, budgets),
- organizing (identification of the organizational structure, identification and analysis of business processes implemented in the facility, analysis of team forms of patient care, one of the basis for crediting the internship in semester 6)
- operational activities of individual areas (departments, offices, setting schedules, settling overtime, etc.).
- controlling the activities of the medical entity (settlement of costs, assessment of the quality of services provided, etc.)

Prerequisites and co-requisites

Students of the Healthcare Management major are required to complete a 6-month internship, i.e. 960 hours. Internships in this scope can be carried out on the basis of an agreement between the University of Gdańsk and the entity hosting the student, such as hospitals, clinics and other public institutions, educational institutions, cultural institutions. The dates of the internship cannot conflict with other classes resulting from the study plan. Internships completed in this scope can be considered as completed if the student documents professional experience or running a business activity that corresponds to the internship program, specified separately for each field of study at the Faculty of Management at the University of Gdańsk. Previously acquired professional experience corresponding to the internship program for the field of study, which is to be the basis for settling the internship, can be counted as completed provided that it took place no earlier than the date of commencement of studies at the Faculty of Management at the University of Gdańsk.

Assessment methods and criteria

Subject passing criteria	Passing threshold	Percentage of the final grade
Internship report	100.0%	100.0%
