

**Subject card**

<b>Subject name and code</b>	Diploma lab, PG_00091464						
<b>Field of study</b>	Water Management and Protection of Water Resources						
<b>Date of commencement of studies</b>	October 2024	<b>Academic year of realisation of subject</b>				2026/2027	
<b>Education level</b>	undergraduate studies	<b>Subject group</b>				Obligatory subject group in the field of study Optional subject group Subject group related to scientific research in the field of study Subject group related to practical vocational preparation	
<b>Mode of study</b>	full-time studies	<b>Mode of delivery</b>				at the university	
<b>Year of study</b>	3	<b>Language of instruction</b>				Polish Polish	
<b>Semester of study</b>	6	<b>ECTS credits</b>				9.0	
<b>Learning profile</b>	practical	<b>Assessment form</b>					
<b>Conducting unit</b>	Pracownia Hydrologii -> Katedra Hydrologii -> Faculty of Oceanography and Geography						
<b>Name and surname of lecturer (lecturers)</b>	<b>Subject supervisor</b>		dr hab. Joanna Fac-Beneda				
	<b>Teachers</b>						
<b>Lesson types</b>	<b>Lesson type</b>	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	<b>Number of study hours</b>	0.0	0.0	30.0	0.0	0.0	30
	E-learning hours included: 0.0						
<b>Learning activity and number of study hours</b>	<b>Learning activity</b>	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	<b>Number of study hours</b>	30		5.0		215.0	250
<b>Subject objectives</b>	<ul style="list-style-type: none"> <li>To familiarise students with the methodology for the creation of simple works of the nature of a scientific monograph and to provide technical support in the independent preparation and editing of diploma (undergraduate) theses by students;</li> <li>Technical support in students' independent preparation and editing of thesis (bachelor's thesis) in the specified methodological convention and with correct documentation;</li> <li>Preparation of the bachelor thesis</li> </ul>						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[GWOZWL3-W12] basic concepts and principles in the field of protection of industrial property and copyright	knows and understands the basic concepts and principles of industrial property and copyright protection	[SW1] oral statement/ conversation/discussion
	[GWOZWL3-W07] data sources and theoretical basis of data acquisition techniques, collects and pre-evaluates data for the thesis	knows and understands data sources and theoretical basis of data extraction techniques, collects and pre-assesses data for the thesis	[SW2] presentation/project/paper/ report [SW3] text preparation/written work
	[GWOZWL3-U17] learn and plan their development independently in a targeted manner	is able to learn and plan his/her own development in a targeted manner	[SU3] text preparation/written work [SU6] demonstration of practical skills [SU8] observation of student's independent or team work
	[GWOZWL3-U07] use literature and other available sources of information, including information technology, multimedia, Internet, databases, and select and critically evaluate information	is able to use the literature and other sources of information available, including information technology, multimedia, Internet resources and databases, and to select and critically evaluate information	[SU1] oral statement/conversation/ discussion [SU3] text preparation/written work [SU8] observation of student's independent or team work
	[GWOZWL3-K03] systematic further education and professional development, updating and expand their knowledge and skills, understands the limitations of his own knowledge in the context of civilization progress and recognizes authorities in the professional and scientific environment	is willing to undergo systematic retraining and professional development, to update and expand his/her knowledge and skills, understands the limits of his/her own knowledge in the context of the progress of civilisation and recognises authority in the professional and scientific community	[SK1] oral statement/conversation/ discussion [SK8] observation of student's independent or team work
[GWOZWL3-K01] act independently and effectively organize own and team work, is ready to critically assess the degree of its advancement and completion of the set tasks	is ready to act independently and organize his/her own work and that of the team effectively, is prepared to evaluate critically the degree of progress and completion of the tasks set (curricular content)	[SK1] oral statement/conversation/ discussion [SK8] observation of student's independent or team work	
Subject contents	<ol style="list-style-type: none"> <li>1. Data sources in water science.</li> <li>2. Methods of collecting literature and source materials.</li> <li>3. Analysis and interpretation of scientific texts, statistical data and cartographic materials.</li> <li>4. Principles of correct editing of a scientific text (methods of creating a voluminous text, layout of content, rules for making and including figures and tables in the work, figure and table captions, numbering of chapters, figures, tables, formulae, appendices, rules for citing literature in the text and creating a literature list, etc.).</li> <li>5. Selected research methods in water science.</li> <li>6. Preparation of reports on the various stages of the thesis.</li> <li>7. Undergraduate thesis topics.</li> </ol>		
Prerequisites and co-requisites			
Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
	writing the individual chapters	51.0%	100.0%
Recommended reading	Basic literature	Literature related to the thesis	
	Supplementary literature	<ul style="list-style-type: none"> <li>• Weiner J., 1998, Techniques for writing and presenting natural science papers.
