University of Gdańsk

Subject card

Subject name and code	Biology for oceanographers - lecture, PG_00054231		
Field of study	Oceanography		
Date of commencement of studies	October 2024	Academic year of realisation of subject	2024/2025
Education level	undergraduate studies	Subject group	Obligatory subject group in the field of study
Mode of study	full-time studies	Mode of delivery	at the university
Year of study	1	Language of instruction	Polish
Semester of study	1	ECTS credits	3.0
Learning profile	academic	Assessment form	
Conducting unit	Katedra Biologii Morza i Biotechnologii -> Faculty of Oceanography and Geography		
Name and surname of lecturer (lecturers)	Subject supervisor	dr Ilona Złoch	
	Teachers	dr Ilona Złoch	

Lesson types

Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
Number of study hours	30.0	0.0	0.0	0.0	0.0	30

E-learning hours included: 0.0

Learning activity and number of study hours

Learning activity	Participation in didactic classes included in study plan	Participation in consultation hours	Self-study	SUM
Number of study hours	30	10.0	35.0	75

Subject objectives

Introduction to the basics of cytology, anatomy, morphology and physiology. Introduction to a general overview of organisms systematic and the basic concepts of ecology.

Learning outcomes

Course outcome	Subject outcome	Method of verification
OCEANL3-W02	Student knows and understands the basic processes of the water environment, the structure and function of prokaryotic and eukaryotic cells, identifies and correctly describes the basic physiological processes occurring in cells and knows the factors regulating biochemical processes, with particular attention to marine organisms, describes and explains the various stages of asexual and sexual reproduction, describes particular groups of organisms in the aquatic environment with particular emphasis on the marine environment, describes the basic levels of life oranization in the marine environment (1-10);	[SW4] test/exam - oral or written
OCEANL3-W01	Student knows and understands, at an advanced level, proper terminology used in oceanography, with particular emphasis on biological sciences in the field of cytology, anatomy, morphology and physiology of cells and tissues (1-4);	[SW4] test/exam - oral or written

<table>
<tr><td>Subject contents</td><td>The issue of lecture
1 Organization of the living world, theories of biogenesis, levels of organization of life, cell theory of organisms body.
2 Structure and function of prokaryotic and eukaryotic cells.
3 Cell cycle. Reproduction of organisms, selected development cycles.
4 Construction of organisms with and without tissues.
5 Methods of organisms feeding.
6 Methods of organisms respiration.
7 Systematics and evolution, organizational levels.
8 Phenetic and phylogenetic classification.
9 Technique for describing and naming taxonomic units.
10 Basic ecological concepts, with particular emphasis on marine ecology.</td></tr>
<tr><td>Prerequisites and co-requisites</td><td></td></tr>
<tr><td>Assessment methods and criteria</td><td><table><tr><th>Subject passing criteria</th><th>Passing threshold</th><th>Percentage of the final grade</th></tr><tr><td>exam</td><td>51.0%</td><td>100.0%</td></tr></table></td></tr>
<tr><td>Recommended reading</td><td><table><tr><td>Basic literature</td><td>Literature required for the final completion of the course (passing the exam):

1. used during classes

Campbell N., Reece J., Urry L., Cain M., Wasserman S., Minorsky P., Jackson R., BIOLOGIA, wyd. REBIS 2012, Poznań
Szweykowska A., Szweykowski J., Botanika, tom. I, 2001, Wyd. PWN, Warszawa
Solomon E.P., Berg L.R., Martin D.W., Ville C.A., 1996, Biologia, Multico Oficyna Wydawnicza, Warszawa
