

**Subject card**

<b>Subject name and code</b>	Seminar II, PG_00117876						
<b>Field of study</b>	Oceanography						
<b>Date of commencement of studies</b>	October 2024	<b>Academic year of realisation of subject</b>			2024/2025		
<b>Education level</b>	postgraduate studies	<b>Subject group</b>			Obligatory subject group in the field of study Optional subject group		
<b>Mode of study</b>	full-time studies	<b>Mode of delivery</b>			at the university		
<b>Year of study</b>	1	<b>Language of instruction</b>			Polish		
<b>Semester of study</b>	2	<b>ECTS credits</b>			4.0		
<b>Learning profile</b>	academic	<b>Assessment form</b>					
<b>Conducting unit</b>	Faculty of Oceanography and Geography						
<b>Name and surname of lecturer (lecturers)</b>	<b>Subject supervisor</b>		dr hab. Urszula Janas				
	<b>Teachers</b>						
<b>Lesson types</b>	<b>Lesson type</b>	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	<b>Number of study hours</b>	0.0	0.0	0.0	0.0	30.0	30
	E-learning hours included: 0.0						
	Additional information: Learning methods: discussion, oral presentations by students preceded by their own work and consultation with instructors.						
<b>Learning activity and number of study hours</b>	<b>Learning activity</b>	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	<b>Number of study hours</b>	30		10.0		100.0	140
<b>Subject objectives</b>	Expand knowledge of biological oceanography on the basis of analysis of specialized scientific literature. Formation of skills presentation and interpretation of research results.						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[OCEANMU2-U02] can use scientific terminology fluently and appropriately in presenting and discussing problems in the field of oceanography	He or she can fluently and correctly use current scientific terminology in presenting and discussing problems in biological oceanography.	[SU2] presentation/project/paper/report
	[OCEANMU2-K03] is ready to effectively organize his/her own work, is active and persistent and punctuality in completing tasks, is ready to carrying out evaluation of their own activities	He or she is ready to effectively organize his own work, shows activity and is characterized by persistence and punctuality in the implementation of tasks, is self-critical and draws conclusions on the basis of self-analysis.	[SK1] oral statement/conversation/discussion
	[OCEANMU2-U04] is ready to develop in an analytical and synthetic way research and analysis results and based on them creating conclusions	He or she can analytically and synthetically develop the results of research and analysis of biological oceanography and, on the basis of them, conduct correct conclusions.	[SU2] presentation/project/paper/report
	[OCEANMU2-U05] is able to use source information in Polish and a selected foreign language, including archival and electronic databases, in the field of oceanographic issues, performs critical analysis and synthesis of information	He or she is able to use source information, in Polish and English, including archival and electronic databases, in the field of biological oceanography, performs a critical analysis and synthesis of information.	[SU2] presentation/project/paper/report
	[OCEANMU2-U08] is able to prepare a study of a given issue/problem in Polish and a selected foreign language in written form (short scientific text, documented research work) and orally (paper, presentation) and discuss with specialists on topics related to oceanographic issues, with particular emphasis on the studied specialty	He/she is able to prepare in Polish and in a chosen foreign language a paper indicated issue/problem in an oral form (paper, presentation) and discuss with specialists on issues concerning oceanographic problems with particular emphasis on biological oceanography	[SU2] presentation/project/paper/report
	[OCEANMU2-U12] can independently expand and update oceanographic knowledge when planning and developing a professional career, as well as motivates others to deepen their knowledge	He or she is able to independently expand and update knowledge in the field of biological oceanography while planning and developing one's own career as well as motivate others to further their acquired knowledge.	[SU1] oral statement/conversation/discussion
	[OCEANMU2-W05] knows and understands the principles of planning and conducting field and laboratory research as well as advanced methods and tools of scientific research, especially in the field of the studied specialty	He or she knows and understands to an in-depth degree the principles of planning and conducting field and laboratory research, as well as advanced research methods and tools of scientific research, especially in the field of biological oceanography	[SW2] presentation/project/paper/report
	[OCEANMU2-W03] knows and understands research methods used in oceanography and related sciences	He or she knows and understands in depth the research methods used in biological oceanography and related sciences.	[SW2] presentation/project/paper/report
	[OCEANMU2-W01] knows and understands in-depth specialized terminology used in oceanography and related sciences (in Polish and a selected foreign language)	He or she knows and understands to an in-depth degree the specialized terminology specific to the sciences and natural sciences (in Polish, English and/or Latin), with particular emphasis on biological oceanography.	[SW2] presentation/project/paper/report
	[OCEANMU2-K02] is ready to take full responsibility in terms of actions taken and compliance with professional ethics and principles intellectual honesty, is aware of the importance professional approach in every situation	He or she is ready to bear full responsibility in terms of actions taken and adhere to the principles of professional ethics and intellectual integrity, and is aware of the importance of a professional approach in any situation.	[SK1] oral statement/conversation/discussion

	Course outcome	Subject outcome	Method of verification
	[OCEANMU2-W09] knows and understands legal regulations regarding intellectual property rights and their application in scientific work	He or she knows and understands the basic legal regulations on intellectual property rights and their application in scientific work.	[SW1] oral statement/ conversation/discussion
Subject contents	Familiarization with papers published in international journals, especially in topics related to the student's work.		
Prerequisites and co-requisites			
Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
	Completion of a credit work - project or presentation	51.0%	100.0%
Recommended reading	Basic literature	Review papers on biological oceanography and methods used in this field. Scientific publications recommended by the seminar instructor or thesis supervisor.	
	Supplementary literature	Review papers on biological oceanography and methods used in this field. Scientific publications recommended by the seminar instructor or thesis supervisor.
