

Subject card

Subject name and code	Selected aspects of landscape functioning, PG_00119831						
Field of study	Geography						
Date of commencement of studies	October 2024	Academic year of realisation of subject			2026/2027		
Education level	undergraduate studies	Subject group			Obligatory subject group in the field of study Optional subject group Subject group related to scientific research in the field of study		
Mode of study	full-time studies	Mode of delivery			at the university		
Year of study	3	Language of instruction			Polish		
Semester of study	6	ECTS credits			1.0		
Learning profile	academic	Assessment form					
Conducting unit	Pracownia Rekonstrukcji Geomorfologicznych -> Katedra Geomorfologii i Geologii Czwartorzędu -> Faculty of Oceanography and Geography						
Name and surname of lecturer (lecturers)	Subject supervisor		dr Patryk Sitkiewicz				
	Teachers						
Lesson types	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	10.0	0.0	0.0	0.0	0.0	10
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	10		5.0		10.0	25
Subject objectives	<ul style="list-style-type: none"> Familiarize with the natural, social, and economic processes shaping landscape values. Presentation of legal, organizational, and functional conditions for landscape protection. 						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[GEOGRL3-U01] identify and analyze basic natural and socio-economic processes and phenomena and analyze their causes and course	Can identify and analyze basic natural and socio-economic processes and phenomena shaping the landscape. Can analyze their causes and course.	[SU4] test/exam - oral or written
	[GEOGRL3-K04] social action, including cooperation to preserve the ecological balance and protect the Earth's resources and its sustainable development, using forms of own entrepreneurship for this purpose	Is responsible for his own work and is willing to follow the principles of teamwork and increase responsibility for jointly completed tasks.	[SK4] test/exam - oral or written
	[GEOGRL3-U03] use theoretical knowledge of geographic sciences and available sources of information to correctly interpret basic natural, social, economic and political processes	Uses theoretical knowledge in the geographical sciences and available information sources to correctly interpret the basic processes and phenomena shaping the landscape.	[SU4] test/exam - oral or written
	[GEOGRL3-W02] key concepts in geography and theories on spatial variation and distribution of processes and phenomena on the Earth's surface	Knows key concepts regarding the types of landscape, its protection, and shaping in connection with basic knowledge about the Earth's geographical environment, understood as a uniform system of interconnected and interacting components.	[SW4] test/exam - oral or written
	[GEOGRL3-W03] in an advanced degree the processes and phenomena occurring in the natural environment of the Earth, with particular emphasis on the processes and phenomena occurring on the territory of Poland, especially the Coastal and South Baltic Lake Districts	Knows the landscape-forming processes and phenomena to an advanced degree, with particular emphasis on the processes and phenomena occurring in Poland, especially the Coast and the Southern Baltic Lake Districts.	[SW4] test/exam - oral or written
	[GEOGRL3-U02] formulate and analyze basic problems concerning changes in physical and geographic conditions and the social, economic and political situation in local, regional and global scales	Formulates and analyzes basic problems regarding changes in physical and geographical conditions and the social, economic, and political situation on a local, regional, and global scale that affect the functioning and protection of the landscape.	[SU4] test/exam - oral or written
	[GEOGRL3-W01] to an advanced degree, the specificity of geography as a discipline that integrates knowledge from various fields, its genesis and development, as well as the specifics of geographic sciences, their internal structure, object of research and place in the system of sciences	Knows to an advanced degree the specificity of geography as a discipline integrating knowledge about landscape shaping.	[SW4] test/exam - oral or written
	[GEOGRL3-K01] to critically assess the level of one's knowledge, use it in professional activities and, in case of difficulties, to be assisted by the knowledge of experts	Is able to determine the level of his knowledge and skills, understands the need for continuous personal, and professional development.	[SK4] test/exam - oral or written
	[GEOGRL3-W05] Has advanced knowledge of the environment Earth's geographic environment, understood as a unified system of interrelated and interacting each other's components; its diversity, functioning and dynamics of change, including the mutual interaction of environmental components in the area of South Baltic Coastal and Lake Districts	Has advanced knowledge of the landscape, understood as a uniform system of interconnected and interacting components, its diversity, functioning, and dynamics of change.	[SW4] test/exam - oral or written

Subject contents	<ol style="list-style-type: none"> 1. Landscape typology 2. Analysis of the conditions for the development of selected types of landscapes 3. Forms of landscape degradation 4. Legal forms of landscape protection 5. Rules for conducting landscape audits 		
Prerequisites and co-requisites			
Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
	test	51.0%	100.0%
