|--|---|--|-------------------------------------|------------|---|---------|-----|
| Subject name and code | Regional field practice - Economic geography, PG_00120135 | | | | | | |
| Field of study | Geography | | | | | | |
| Date of commencement of studies | October 2024 | Academic year of realisation of subject | | | 2024/2025 | | |
| Education level | undergraduate studies | Subject group | | | Obligatory subject group in the field of study Humanistic-social subject group Subject group related to scientific research in the field of study | | |
| Mode of study | full-time studies | Mode of delivery | | | at the university | | |
| Year of study | 1 | Language of instruction | | | Polish Polish | | |
| Semester of study | 2 | ECTS credits | | | 2.0 | | |
| Learning profile | academic | Assessment form | | | | | |
| Conducting unit | Zakład Rozwoju Regionalnego -> Instytut Geografii Społ-Ekon i Gospodarki Przestrzennej -> Faculty of Social Sciences | | | | | | |
| Name and surname of lecturer (lecturers) | Subject supervisor | | dr Renata Anisiewicz | | | | |
| | Teachers | | | | | | |
| Lesson types | Lesson type | Lecture | Tutorial | Laboratory | Project | Seminar | SUM |
| | Number of study hours | 0.0 | 24.0 | 0.0 | 0.0 | 0.0 | 24 |
| | E-learning hours included: 0.0 | | | | | | |
| | Additional information: - field group work, - use of research methods: questionnaire, inventory, classification. | | | | | | |
| Learning activity and number of study hours | Learning activity | Participation in didactic classes included in study plan | Participation in consultation hours | Self-study | SUM | | |
| | Number of study hours | 24 | 11.0 | 25.0 | 60 | | |
| Subject objectives | To learn the research methods of economic geography and to develop the ability to apply them in practice; The ability to observe and correctly make field notes and sketches and use topographic maps; The ability to independently collect materials and develop them statistically and cartographically in the form of descriptive and graphic documentation. | | | | | | |

| | | | |
|--|--|--|--|
| Learning outcomes | Course outcome | Subject outcome | Method of verification |
| | [GEOGRL3-W08] at an advanced level methods and principles development of data on the natural and anthropogenic environment, and methods of their analysis and interpretation | has an advanced understanding of the methods and principles of compiling data on the anthropogenic environment as well as methods for their analysis and interpretation | [SW3] text preparation/written work |
| | [GEOGRL3-U04] plan and carry out, independently and in a team, a simple research procedure in the field of geographical sciences under the guidance of a scientific supervisor | is able to plan and carry out independently and in a team simple research proceedings in the field of economic geography under the guidance of a scientific supervisor | [SU6] demonstration of practical skills [SU8] observation of student's independent or team work |
| | [GEOGRL3-U06] apply methods and research tools of geographic sciences, including conducting observations and field measurements, and assess their suitability for the tasks in which the application objective of geography can be achieved | can apply methods and research tools in of economic geography, including conducting field observations and measurements and to evaluate their usefulness for the realization of tasks in which the purpose of the application of geography | [SU6] demonstration of practical skills |
| | [GEOGRL3-U07] use geoinformatics techniques and simple statistical tools and methods of spatial analysis to determine relationships between a variety of variables specific to the geographic environment and present the results of the analyses performed | can use simple statistical tools and methods of spatial analysis to determine the relationships between various variables characteristic of the geographic environment and to present the results of the analyses performed | [SU3] text preparation/written work |
| | [GEOGRL3-K03] work in a group and perform various roles in it, take care of the entrusted equipment and the safety of themselves and others | is ready to work in a group in the field and perform various roles in it, take care of materials entrusted to him and the safety of himself and others | [SK8] observation of student's independent or team work |
| | [GEOGRL3-U01] identify and analyze basic natural and socio-economic processes and phenomena and analyze their causes and course | can identify and analyze basic processes and phenomena socio-economic and analyze their causes and course | [SU3] text preparation/written work |
| [GEOGRL3-W07] on advanced level methods of acquiring data on the natural and anthropogenic environment, including operation of specialized equipment | knows to an advanced degree the methods of obtaining data on the anthropogenic environment | [SW5] implementation of a problem task | |
| Subject contents | <p>Variant A - Study of the state of development of services in the city (using the example of Gdynia).</p> <ol style="list-style-type: none"> 1. Classification of service entities 2. Analysis of the spatial distribution of points providing services 3. Identification of places of concentration of service entities 4. Characteristics of the structure of services <p>Variant B - Differentiation of land use forms in the city center (using the example of Gdansk)</p> <ol style="list-style-type: none"> 1. Characterization of various forms of urban investment 2. Study of the spatial structure of forms of investment 3. Determination of the functional structure of surrounding areas <p>Variant C - Study of the intensity of socio-economic phenomena in the surrounding space</p> <ol style="list-style-type: none"> 1. Inventory of the volume of traffic characterizing the phenomenon at different spatial and temporal scales 2. Determination of spatial differentiation of the intensity of the studied phenomenon 3. Characteristics of the structure of differentiation of the studied phenomenon | | |
| Prerequisites and co-requisites | | | |
| Assessment methods and criteria | Subject passing criteria | Passing threshold | Percentage of the final grade |
| | conducting field research and correct, timely preparation of their results | 51.0% | 100.0% |

| | | |
