Subject objectives	<p>The purpose of the course is to acquaint students with the development of social thought in the geographical area of today's Romance countries from the beginning of the formation of socio-political theories in Greco-Roman antiquity to the end of the 18th century. Students should be able to analyze the various social phenomena occurring in these countries at the time, find their historical, political and economic sources, and place them critically in the broader contexts of contemporary institutions and ideals of civil society. Translated with DeepL.com (free version)</p>						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[IBEL3_W06] Has advanced knowledge of the links between iberistics and other disciplines in the humanities and related sciences, has a basic knowledge of the participants in cultural activities	The student has advanced knowledge of the interrelationship of iberistics with disciplines belonging to the area of social sciences.
