

**Subject card**

Subject name and code	International Transport, PG_00119421						
Field of study	International Economic Relations						
Date of commencement of studies	October 2023	Academic year of realisation of subject			2024/2025		
Education level	undergraduate studies	Subject group			Obligatory subject group in the field of study		
Mode of study	full-time studies	Mode of delivery			at the university		
Year of study	2	Language of instruction			Polish		
Semester of study	4	ECTS credits			1.0		
Learning profile	academic	Assessment form					
Conducting unit							
Name and surname of lecturer (lecturers)	Subject supervisor		dr Tomasz Nowosielski				
	Teachers		dr Tomasz Nowosielski				
Lesson types	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	15.0	0.0	0.0	0.0	0.0	15
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan	Participation in consultation hours	Self-study	SUM		
	Number of study hours	15	0.0	0.0	15		
Subject objectives	The aim of the course is to introduce students to general transport issues, specialised concepts and terms, the principles of the various branches and modes of transport, transport markets and transport policy in the European Union.						
Learning outcomes	Course outcome	Subject outcome			Method of verification		
	[MSG3_U03] can identify and analyse relations between economic entities and public institutions in the national and international environment; using the acquired theoretical knowledge can critically evaluate these relations and indicate directions for their further development or changes	Students will be able to correctly interpret economic and transport phenomena and processes, analyse economic links on transport markets.			[SU4] test/exam - oral or written		
	[MSG3_K02] critically assesses the level of his/her knowledge in the field of economics; is willing to deepen and update this knowledge throughout his/her life	The student verifies the state of his/her knowledge, understands the need to learn, independently supplement and improve the acquired knowledge.			[SK4] test/exam - oral or written		
	[MSG3_W07] knows and understands types of economic ties and regularities governing them, including the principles of functioning of the market and the market mechanism, both in the national and international aspect	The student has basic knowledge of the functioning of transport, knows specialised terminology, basic principles of the functioning of national and international markets of transport services, understands competition mechanisms, knows the directions of the European Union transport policy influencing the functioning and development of transport enterprises.			[SW4] test/exam - oral or written		

Subject contents	<p>1. Introduction to transport issues (concept and classification of transport, subject of transport, transport infrastructure and suprastructure, transport production characteristics, measures, transport potential and capacity, costs, prices and quality in transport, transport system and network, transport process and chain, economic functions of transport)</p> <p>2. International markets for transport services (concept, characteristics and types of transport markets, international markets for maritime transport, road transport, rail transport, inland waterway transport and air transport)</p> <p>3. Intermodal transport (essence and types of intermodal transport, containerised land-sea transport, land-ferry transport, rail-road transport, role and tasks of the intermodal transport operator)</p> <p>4. Transport policy of the European Union (objectives and principles of transport policy, development of the TEN-T transport infrastructure, EU policy towards individual modes of transport)</p>		
Prerequisites and co-requisites	Microeconomics		
Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
	examination test and class activity	51.0%	100.0%
