

Subject card

Subject name and code	Data Warehouses in Management, PG_00119037						
Field of study	Economics						
Date of commencement of studies	October 2024	Academic year of realisation of subject			2024/2025		
Education level	Master's studies	Subject group			Obligatory subject group in the field of study Specialty subject group		
Mode of study	full-time studies	Mode of delivery			at the university		
Year of study	1	Language of instruction			Polish		
Semester of study	2	ECTS credits			2.0		
Learning profile	academic	Assessment form			credit		
Conducting unit	Division of Electronic Economy -> Department of Maritime Transport and Seaborne Trade -> Faculty of Economics -> Rector						
Name and surname of lecturer (lecturers)	Subject supervisor		dr hab. Jacek Winiarski				
	Teachers		dr hab. Jacek Winiarski dr Zuzanna Borda				
Lesson types	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	15.0	0.0	0.0	0.0	0.0	15
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	15		0.0		0.0	15
Subject objectives	The aim of the lectures is to familiarize students with the key aspects of creating, managing and using data warehouses in enterprise management. Students will gain knowledge about data warehouse architecture, ETL processes (Extract, Transform, Load), data security and analysis and reporting methods. Lectures will also cover the latest technologies and trends related to data warehouses.						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[EKONMU2_W02] has an in-depth knowledge of various types of existing economic entities and organisations as well as an extended knowledge of public institutions	Has in-depth knowledge of various types of existing economic entities and organizations, and expanded knowledge of public institutions, in the context of data warehouse management.	[SW4] test/exam - oral or written
	[EKONMU2_K04] is ready to think and act in an entrepreneurial manner; adapts to new situations and conditions; undertakes challenges of creative thinking; acquires resilience to failures; can assess risks and threats and find ways of counteracting their effects	Is ready to think and act entrepreneurially; adapts to new situations and conditions, takes on creative thinking challenges, develops resilience to failures, can assess risks and threats, and find ways to counteract their effects.	[SK1] oral statement/conversation/discussion
	[EKONMU2_U13] can manage teamwork as well as interact and work in a team (including in an international environment) assuming a leading role in it	Can lead a team and cooperate and work in a team, including in an international environment, assuming a leading role.	[SU1] oral statement/conversation/discussion
	[EKONMU2_U14] can appropriately identify priorities and plan and organise tasks related to their implementation, as well as monitor and assess progress	Can appropriately set priorities, plan and organize tasks related to data warehousing, and monitor and evaluate progress in their implementation.	[SU8] observation of student's independent or team work
	[EKONMU2_W11] knows the detailed principles of establishing and developing forms of individual entrepreneurship, using the knowledge of economics, finance and management sciences	Knows detailed principles of creating and developing forms of individual entrepreneurship in the context of data warehouse management, using knowledge from economics, finance, and management sciences.	[SW4] test/exam - oral or written
	[EKONMU2_W08] has an in-depth knowledge of processes occurring in enterprises and economic organisations and with related areas, as well as of processes of change in public institutions; knows methods of research on the regularities governing these changes, taking into account the influence of external stakeholders on them	Has in-depth knowledge of the processes occurring in enterprises and economic organizations, including data warehouse management, as well as the processes of changes in public institutions. Knows methods of examining the principles governing these changes, considering the impact of external stakeholders.	[SW4] test/exam - oral or written
	[EKONMU2_W07] has an in-depth knowledge of economic and financial principles governing the functioning and management of economic entities and organisations, as well as of systems of legal, organisational, professional, moral and ethical norms and rules organising public structures and institutions, both in the national and international spheres	Knows and understands basic concepts and the architecture of data warehouses, their main components, and functions. Understands the importance of data warehouses in the decision-making process.	[SW4] test/exam - oral or written
	[EKONMU2_U15] can independently expand and improve acquired knowledge and skills in economics; is open to new ideas and techniques; tends to learn using any accessible method and to interact with other participants of the learning process	Can independently supplement and improve knowledge and skills in data warehousing, is open to new technologies and techniques, and collaborates with others in the learning process.	[SU1] oral statement/conversation/discussion
	[EKONMU2_K05] correctly identifies, diagnoses and solves dilemmas and alternative solutions related to the profession	Correctly identifies, diagnoses, and resolves dilemmas and various solution options related to data warehouse management.	[SK4] test/exam - oral or written
Subject contents	<p>Week 1: Introduction to data warehousing Week 2: Data warehouse architecture Week 3: ETL Processes (Extract, Transform, Load) Week 4: Data warehouse security Week 5: Data analysis and reporting Week 6: Artificial intelligence in data warehouses Week 7: Data warehouse project management</p>		

Prerequisites and co-requisites	To participate in lectures on the subject, students should have basic computer skills. Knowledge of basic IT tools and the ability to effectively use the Internet and office applications are necessary to fully understand the material discussed during lectures.		
Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
	Exam	51.0%	100.0%
