

**Subject card**

<b>Subject name and code</b>	Port Economy and Policy, PG_00102677						
<b>Field of study</b>	International Economic Relations						
<b>Date of commencement of studies</b>	October 2024	<b>Academic year of realisation of subject</b>			2024/2025		
<b>Education level</b>	postgraduate studies	<b>Subject group</b>			Obligatory subject group in the field of study		
<b>Mode of study</b>	full-time studies	<b>Mode of delivery</b>			at the university		
<b>Year of study</b>	1	<b>Language of instruction</b>			Polish		
<b>Semester of study</b>	2	<b>ECTS credits</b>			3.0		
<b>Learning profile</b>	academic	<b>Assessment form</b>					
<b>Conducting unit</b>	Zakład Gospodarki Morskiej -> Katedra Transportu i Handlu Morskiego -> Faculty of Economics						
<b>Name and surname of lecturer (lecturers)</b>	<b>Subject supervisor</b>		dr hab. Hanna Klimek				
	<b>Teachers</b>		dr hab. Hanna Klimek				
<b>Lesson types</b>	<b>Lesson type</b>	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	<b>Number of study hours</b>	30.0	0.0	0.0	0.0	0.0	30
	E-learning hours included: 0.0						
<b>Learning activity and number of study hours</b>	<b>Learning activity</b>	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	<b>Number of study hours</b>	30		0.0		0.0	30
<b>Subject objectives</b>	Presentation of the following issues: management in sea ports, port services markets and port policy issues.						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[MSGMU2_W11] has a theoretically grounded, in-depth knowledge of the key issues of managing a business entity on the national and international market and of selected detailed issues of the international supply chain	The student has in-depth knowledge of: port surroundings; intra-port relations and between ports and their surroundings; understands the role and importance of seaports in land-sea transport chains and logistic supply chains; understands the social responsibility of seaports.	[SW4] test/exam - oral or written
	[MSGMU2_W04] has an in-depth knowledge of different types and elements of economic structures and institutions, including institutions, organisations and economic entities; understands the causes, course, scale and consequences of changes occurring in them, as well as relations between them on a national, international and intercultural scale; knows the theories explaining relations among them	The student has knowledge about the importance and economic functions of seaports; management of port infrastructure and suprastructure and their reproduction; location of seaports; port policy; port fees; knows the Act on ports and harbors.	[SW4] test/exam - oral or written
	[MSGMU2_U03] can identify and analyse relations between business entities and institutions in their national and international environment	The student has systematic knowledge about the port services markets.	[SU4] test/exam - oral or written
	[MSGMU2_W03] knows and understands types of economic ties and the regularities governing them; understands the conditions and principles of the functioning of the market and the market mechanism in the national, international and global aspect	The effect does not apply to lecture	[SW1] oral statement/ conversation/discussion
	[MSGMU2_K06] is ready to independently identify, diagnose and responsibly resolve dilemmas and alternative solutions related to his/her profession and the development of professional achievements	The effect does not apply to lecture	[SK1] oral statement/conversation/ discussion
	[MSGMU2_U01] can creatively interpret and explain complex and atypical economic phenomena and the relations occurring between them, using the acquired knowledge in economics, finance and international economic relations	The effect does not apply to lecture	[SU1] oral statement/conversation/ discussion
	[MSGMU2_U02] can observe, evaluate and critically analyse the causes and course of processes and phenomena taking place in the open economy; can formulate his/her own opinions on the subject, interpret statistical data and economic indicators necessary in this respect, and also forecast economic processes and phenomena using advanced methods and tools applied in economic sciences	The effect does not apply to lecture	[SU1] oral statement/conversation/ discussion [SU5] implementation of a problem task [SU8] observation of student's independent or team work
	[MSGMU2_W13] knows and understands methods and tools for describing economic phenomena, including data acquisition techniques, which make it possible to describe and analyse economic entities functioning on the international market as well as processes and phenomena occurring in them and between them, and also those supporting decision-making processes	The effect does not apply to lecture	[SW1] oral statement/ conversation/discussion [SW5] implementation of a problem task

Subject contents	<p>1. Economic importance of seaports: discussion of the importance of ports in the national economy of individual countries and in the European Union.</p> <p>2. Economic functions of seaports.</p> <p>3. Location of seaports.</p> <p>4. Seaport as a logistics center.</p> <p>5. Port services markets (PSM): PSM as a spatial and economic category.</p> <p>6. Competition on PSM; competitiveness of seaports.</p> <p>7. Port infrastructure as a factor in the production of port services.</p> <p>8. Financing the development of seaports.</p> <p>9. Prices of port services.</p> <p>10. Structural and ownership transformations in Polish seaports.</p> <p>11. Act on ports and harbors.</p> <p>12. Seaport development policy in Poland and port policy of the European Union.</p> <p>13. Social responsibility of seaports.</p>
