

Subject card

Subject name and code	Sector of Transport, Freight Forwarding and Logistics, PG_00119132						
Field of study	Economics						
Date of commencement of studies	October 2024	Academic year of realisation of subject				2026/2027	
Education level	Bachelor's studies	Subject group				Obligatory subject group in the field of study	
Mode of study	full-time studies	Mode of delivery				at the university	
Year of study	3	Language of instruction				Polish	
Semester of study	6	ECTS credits				2.0	
Learning profile	academic	Assessment form				credit	
Conducting unit	Faculty of Economics -> Rector						
Name and surname of lecturer (lecturers)	Subject supervisor		dr Maria Matusiewicz				
	Teachers						
Lesson types	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	0.0	15.0	0.0	0.0	0.0	15
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	15		0.0		0.0	15
Subject objectives	The aim of the course is to familiarize students with the situation on the TSL market, present the basic forms of business relations occurring in this sector, present the current conditions of operation of enterprises and indicate current trends and directions of technological development on the TFL market.						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[EKONL3_K05] correctly identifies, diagnoses and resolves professional dilemmas and different options for solutions	correctly identifies, diagnoses and resolves dilemmas and various solution options specific to the profession related to the transport, forwarding and logistics sector.	[SK1] oral statement/conversation/discussion [SK2] presentation/project/paper/report [SK4] test/exam - oral or written [SK5] implementation of a problem task [SK8] observation of student's independent or team work
	[EKONL3_U02] is able to use the knowledge of theory and data to analyse concrete economic and social processes and phenomena and to analyse these phenomena using methods developed in economics, finance and management sciences	is able to use his/her theoretical knowledge and obtain data to analyse specific economic and social processes and phenomena in the transport, forwarding and logistics sector and analyse these phenomena using methods developed in economics, finance and management sciences.	[SU1] oral statement/conversation/discussion [SU3] text preparation/written work [SU4] test/exam - oral or written [SU8] observation of student's independent or team work
	[EKONL3_U03] is able to analyse the causes and course of specific economic and social processes and phenomena, and accurately analyse these phenomena using adequate methods and tools economic and social	is able to analyze the causes and course of specific economic and social processes and phenomena and accurately analyze these phenomena using adequate economic and social methods and tools	[SU2] presentation/project/paper/report [SU4] test/exam - oral or written [SU8] observation of student's independent or team work
	[EKONL3_W02] has advanced knowledge of the different types of existing business entities and organisations and public institutions	has advanced knowledge of the various types of existing economic entities and organizations in the transport, forwarding and logistics sector and public institutions related to this transport, forwarding and logistics sector	[SW4] test/exam - oral or written [SW1] oral statement/conversation/discussion [SW2] presentation/project/paper/report [SW5] implementation of a problem task
	[EKONL3_W03] has advanced knowledge of the relations between economic agents and social organisations operating in the national, international and intercultural arenas	has advanced knowledge of the relationships between economic entities in the transport, forwarding and logistics sector, taking into account both national, international and intercultural aspects.	[SW4] test/exam - oral or written [SW1] oral statement/conversation/discussion [SW2] presentation/project/paper/report [SW5] implementation of a problem task
	[EKONL3_K01] recognises the importance of economic knowledge in identifying and solving economic problems and of consulting experts when difficulties in solving them independently	recognises the importance of economic knowledge in the process of identifying and solving economic problems specific to the transport, forwarding and logistics sector, and seeking expert advice in the event of difficulties in solving them on your own.	[SK1] oral statement/conversation/discussion [SK2] presentation/project/paper/report [SK4] test/exam - oral or written [SK5] implementation of a problem task [SK8] observation of student's independent or team work
	[EKONL3_U06] uses the knowledge acquired in economics, finance and management to solve economic and social dilemmas arising in the professional context	uses his/her knowledge of economics, finance and management to resolve economic and social dilemmas that arise in his/her professional work	[SU1] oral statement/conversation/discussion [SU2] presentation/project/paper/report [SU4] test/exam - oral or written [SU8] observation of student's independent or team work
Subject contents	1. Structure and characteristics of the TSL market 2. Legal and market aspects of providing transport and forwarding services 3. Warehouse management and terminal services 4. Packaging and preparation of cargo for transport and storage 5. Features of modern distribution networks 6. Security in logistics chains 7. Trends and technologies in the development of the TSL market
