| Subject objectives | The aim of the course is to provide knowledge of the customs service process for companies carrying out trade transactions on the international market and to develop skills in planning this process from the position of the customs authority and the company, including completing customs documents, determining the origin of goods, tariff codes and customs value. Various customs clearance scenarios will be presented, depending on the role of the company in the supply chain, which will indicate the procedures and documents required by customs authorities. | | | | | | |

| Learning outcomes | Course outcome | Subject outcome | Method of verification |
|---------------------------------|--|---|--|
| | [MSGL3_W11] has an advanced knowledge of (legal, organisational, ethical) rules and norms organising economic structures and institutions (in particular those on the international market) | the student has advanced knowledge of the rules and standards (legal, organizational, ethical) organizing the structures of customs administration (especially those on the international market) and the process of customs clearance of goods | [SW1] oral statement/ conversation/discussion [SW2] presentation/project/paper/ report [SW5] implementation of a problem task |
