University of Gdańsk

Subject card

Subject name and code	IT Tools in Projects, PG_00119578		
Field of study	International Economic Relations		
Date of commencement of studies	October 2024	Academic year of realisation of subject	2026/2027
Education level	undergraduate studies	Subject group	Obligatory subject group in the field of study
Mode of study	full-time studies	Mode of delivery	at the university
Year of study	3	Language of instruction	Polish
Semester of study	5	ECTS credits	2.0
Learning profile	academic	Assessment form	
Conducting unit			
Name and surname of lecturer (lecturers)	Subject supervisor	dr Maciej Krzemiński	
	Teachers		

Lesson types

Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
Number of study hours	0.0	15.0	0.0	0.0	0.0	15

E-learning hours included: 0.0

Learning activity and number of study hours

Learning activity	Participation in didactic classes included in study plan	Participation in consultation hours	Self-study	SUM
Number of study hours	15	0.0	0.0	15

Subject objectives

The aim of the course is to familiarize the student with exemplary IT tools supporting the process preparation and management of a project or project portfolio in various institutions.

Learning outcomes

Course outcome	Subject outcome	Method of verification
[MSGL3_W10] knows selected methods and tools, including IT tools and data acquisition techniques, which make it possible to describe and analyse economic entities operating on the international market; knows the processes and phenomena occurring in them and between them, and processes supporting decision-making	The student identifies useful IT tools for implementing projects within the enterprise. They possess knowledge of project processes, considering the specifics of different types.	[SW2] presentation/project/paper/ report
[MSGL3_U08] uses basic methods and computer programmes as well as marketing techniques and tools to acquire and analyse data necessary in his/ her professional work to diagnose economic processes and make adequate economic decisions	The student utilizes their knowledge of IT techniques to solve problems in business projects. Based on the acquired IT techniques, they assess the project's progress. They adapt IT methods to different types of projects and the organizations managing them.	[SU2] presentation/project/paper/ report
[MSGL3_K03] participates in the preparation of economic and social projects; can reconcile legal, economic, ecological, political and social requirements	Collaboration within the group teaches prioritization of specific tasks in the project being prepared. The student is active and entrepreneurial.	[SK2] presentation/project/paper/ report

<table>
<tr><td>Subject contents</td><td>1. Introduction to IT tools supporting project management; essence and significance of IT solutions in the process of project planning and implementation.2. IT tools in project management processes. Criteria for selecting software supporting project management. Presentation of selected IT tools helpful in project management.3. Preparation of schedules using various IT platforms; reporting progress in project implementation using different tools.4. Projects requiring time, resource, and task management - Excel as a fundamental tool. Advantages and disadvantages.5. GanttProject - using a free tool for creating schedules and resource planning.6. MS Project as a fundamental IT tool in project management. Planning schedules, tasks, assigning resources to tasks, project progress control.7. OpenProject - internet platform in project management. Cost tracking and budget control using a selected example.8. Execution of project tasks related to: building schedules, creating task lists and structures, resource planning.</td></tr>
