Subject objectives	The classes are similar to seminar classes; students work either on the larger entire Greek text (on a selected quite extensive work), or on smaller fragments of various texts that in total illustrate some literary, cultural or historical issue; on the one hand, they consolidate, expand and systematize lexical and grammatical knowledge and improve their translation skills from Greek into Polish, and on the other hand, they learn how to pose and solve research problems (with a greater degree of difficulty and a wider scope than in the Greek translation course).
