	<b>Number of study hours</b>	30		0.0		45.0	75
<b>Subject objectives</b>	The purpose of the course is to familiarize students with the system of planning and spatial management, as well as with the suitability of planning and development instruments (in particular, local spatial development plans and local revitalization plans) for building local security by public administration bodies. Achievement of the indicated goal will be served by both the analysis of the legal conditions of spatial management and urban planning methods and techniques.						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[KRYML3_WG02] The graduates knows the basic terminology and basic concepts in the field of law, criminology and related sciences.	Has elementary knowledge of the system of planning and spatial development, as well as the suitability of planning and spatial development instruments for building local security by public administration bodies. He freely uses the conceptual grid of planning and spatial development.	[SW4] test/exam - oral or written
	[KRYML3_UW01] The graduate can observe and interpret social phenomena, analyzes their relations with various areas of criminology.	Is able to use and integrate theoretical knowledge in the field of planning and land use planning in order to analyze and interpret the problems occurring in this area in terms of local security.  Has the ability to perceive both the benefits and threats to local security resulting from the indications of the planning and zoning system. Has the ability to recognize the multifacetedness and complexity of the problems that arise in the area of planning and land use, in terms of local security	[SU4] test/exam - oral or written
	[KRYML3_KK01] The graduate is aware of the level of his/her knowledge and skills and understands the need for lifelong learning.	Is ready to participate in the preparation of projects in the field of planning and spatial development, in the field of building local security by public administration bodies, understands the need for continuous expansion of knowledge due to changing legislation and civilization conditions	[SK4] test/exam - oral or written
Subject contents	<p>Introductory classes  The concept of local security  The importance of planning and land use for local security. Urban planning approach  Construction of the planning and space development system  The role of the municipality in the system of planning and space development  Legal nature, editorial form and functionality of the local spatial development plan and local revitalization plan  Scope of statutory authorization to enact a local land use plan vs. local security  Scope of statutory authorization to enact a local revitalization plan vs. local security  Workshop on design of planning documents</p>
