<b>Subject objectives</b>	<p>The objective of the course "Fundamentals of Law" is to introduce students to the essential legal concepts necessary for understanding and conducting business in an international context. Students will become acquainted with the diversity of legal systems and legal families worldwide and will learn about fundamental principles of contract law, tort law, commercial law, public international law, and intellectual property law. The course aims to develop skills in analyzing and interpreting legal provisions and applying them practically in business activities.</p>						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[IBL3_U10] can plan and implement own lifelong learning in the field of international business	The student is able to plan and pursue lifelong learning. They understand the importance of continuous development and updating of legal knowledge to effectively operate in a changing legal and business environment.
