| Subject name and code | Ballistics - auditorium classes, PG_00133120 | | | | | | |
| Field of study | Criminology | | | | | | |
| Date of commencement of studies | October 2024 | Academic year of realisation of subject | | | 2025/2026 | | |
| Education level | Master's studies | Subject group | | | Obligatory subject group in the field of study | | |
| Mode of study | full-time studies | Mode of delivery | | | at the university | | |
| Year of study | 2 | Language of instruction | | | Polish | | |
| Semester of study | 4 | ECTS credits | | | 1.0 | | |
| Learning profile | academic | Assessment form | | | credit | | |
| Conducting unit | Division of Criminology -> Department of Material Criminal Law and Criminology -> Faculty of Law and Administration -> Rector | | | | | | |
| Name and surname of lecturer (lecturers) | Subject supervisor | | dr Adrian Wrocławski | | | | |
| | Teachers | | dr Adrian Wrocławski | | | | |
| Lesson types | Lesson type | Lecture | Tutorial | Laboratory | Project | Seminar | SUM |
| | Number of study hours | 0.0 | 10.0 | 0.0 | 0.0 | 0.0 | 10 |
| | E-learning hours included: 0.0 | | | | | | |
| Learning activity and number of study hours | Learning activity | Participation in didactic classes included in study plan | | Participation in consultation hours | | Self-study | SUM |
| | Number of study hours | 10 | | 0.0 | | 15.0 | 25 |
| Subject objectives | Introduction to the legal and forensic issues of firearms and ammunition and the effects and traces of their use in the commission of crimes. To familiarise students with the possibility of using ballistics in evidence. To assimilate and make students understand general concepts related to firearms, ballistics and forensics. To know the basic legal regulations related to firearms and ammunition to be able to interpret and apply these regulations. | | | | | | |

| Learning outcomes | Course outcome | Subject outcome | Method of verification |
| | [KRYMMU2_KK01] The graduate is aware of the level of his/her knowledge and skills, and also understands the need of lifelong learning | Student is aware of his/her knowledge and skills, understands the need for lifelong learning and is willing to continuously improve his/her knowledge. | [SK1] oral statement/conversation/discussion |
| | [KRYMMU2_UW01] The graduate utilizes theoretical knowledge in the field of criminology and the related scientific disciplines to analyze and interpret problems connected with widely understood crime | The student is able to use and integrate theoretical knowledge in the field of forensic science and criminology and related disciplines.He/she is able to solve specific problems related to forensic science and criminology and to predict the consequences of planned actions. | [SU1] oral statement/conversation/discussion |
| | [KRYMMU2_WG05] He/she has deepened knowledge referring to the ways and tools, including techniques of data and information acquisition appropriate for criminology and criminalistics | Student knows the methods and tools, including data and information extraction techniques, appropriate to the field of study, taking into account the specificities of criminology and forensic science | [SW1] oral statement/conversation/discussion |
| | [KRYMMU2_UK03] He/she prepares responsibly to his/her work, can determine priorities in work and plan work appropriately | The student is able to properly prepare for his/her work and to plan it properly and effectively | [SK1] oral statement/conversation/discussion |
| [KRYMMU2_WG02] He/she demonstrates deepened knowledge about the character of natural sciences connected with the field of stud, their place in the system of sciences and mutual relations | The student has an in-depth knowledge of forensic science and criminology and their connections and relations with other branches of science. | [SW1] oral statement/conversation/discussion | |
| Subject contents | 1. The concept of weapons and an outline of the history of their development 2. Forensic systematics of small arms 3. Construction of firearms 4 Ammunition and its classificatio 5. Ballistics (classical and chemical) 6. Forensic-weapons expertise (a) technical evaluation of firearms and ammunition (b) individual and group identification of firearms on the basis of traces left behind (c) determination of distance and direction of shots (d) identification of the shooter 7. Gunshot injuries 8. Securing firearms and ammunition and traces of their use for examination. 9. Firearms, bullets and shells casings files | | |
| Prerequisites and co-requisites | No | | |
| Assessment methods and criteria | Subject passing criteria | Passing threshold | Percentage of the final grade |
| | Exam | 51.0% | 100.0% |
