| <b>Subject objectives</b>                          | The purpose of the course is to familiarize students with environmental administration as a complex process that includes both the actions of state and local government bodies that ensure environmental protection and rational management of environmental resources. |  |                     |                                     |  |            |     |

| Learning outcomes               | Course outcome  | Subject outcome   | Method of verification   |
|---------------------------------|---|---|--|
|                                 | ADMINL3_KO05  | The student is able to spread knowledge of environmental law, including the rational management of natural resources and the actions of competent authorities.          | [SK2] presentation/project/paper/report<br>[SK5] implementation of a problem task  |
|                                 | ADMINL3_UK04  | The student is able to analyze and then comment on the regulations of environmental law.  | [SU1] oral statement/conversation/discussion   |
|                                 | ADMINL3_KK02  | Students are able to independently acquire knowledge and develop their professional skills.   | [SK2] presentation/project/paper/report  |
|                                 | ADMINL3_WK10  | The student knows and understands the most important dilemmas brought by the development of civilization within the administrative and environmental sciences.          | [SW1] oral statement/conversation/discussion<br>[SW2] presentation/project/paper/report<br>[SW3] text preparation/written work |
|                                 | ADMINL3_UW02  | The student knows and can describe public institutions in the field of environmental protection.  | [SU5] implementation of a problem task   |
|                                 | ADMINL3_KK03  | The student does not avoid difficult cases and strives to solve environmental problems.   | [SK8] observation of student's independent or team work  |
|                                 | ADMINL3_UK06  | The student knows the basic principles of constructing pleadings and preparing public speeches.   | [SU3] text preparation/written work<br>[SU6] demonstration of practical skills   |
|                                 | ADMINL3_KO06  | The student knows the instruments for safeguarding the public interest in environmental protection.   | [SK1] oral statement/conversation/discussion   |
|                                 | ADMINL3_KR04  | The student is aware of the importance of environmental laws for the development of the economy and the consequences of violating these norms.                          | [SK5] implementation of a problem task   |
|                                 | ADMINL3_UW03  | The student knows the procedures and prerequisites for initiating environmental proceedings and knows what sources will allow him to update his knowledge in this area. | [SU1] oral statement/conversation/discussion<br>[SU2] presentation/project/paper/report  |
|                                 | ADMINL3_UU10  | The student responsibly prepares for his work, being aware of the need for continuous improvement.  | [SU4] test/exam - oral or written  |
|                                 | ADMINL3_KK01  | The student is able to find experts and request relevant opinions from them.  | [SK6] demonstration of practical skills  |
|                                 | ADMINL3_UO08  | The student is capable of participating in the popularization of knowledge in the field of environmental protection and environmental administration.                   | [SU6] demonstration of practical skills<br>[SU8] observation of student's independent or team work                             |
|                                 | ADMINL3_UO09  | The student is able to plan individual and group work.  | [SU8] observation of student's independent or team work  |
|                                 | ADMINL3_UW01  | The student is aware of the need to think and act in a pro-environmental way.   | [SU1] oral statement/conversation/discussion   |
