<b>Subject objectives</b>	The aim of the course is to familiarize students with the principles and legal regulations concerning income taxation in Poland. Students will acquire skills in drafting procedural documents in tax proceedings related to income taxes.						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[PiDPMU2_W07] He/she demonstrates elementary knowledge about principles of setting up and developing basic forms of individual entrepreneurship and taxation of such activities	The student has basic knowledge of the principles of establishing and developing individual entrepreneurship and the taxation of such activities, enabling them to initiate and manage their own ventures.	[SW4] test/egzamin - ustny lub pisemny
	[PiDPMU2_K04] He/she is ready to perform professional roles related to the application of tax and balance sheet law and to demand it from others - including, in particular, the development of the achievements of the profession of tax advisor, maintaining the ethos of this profession, observing and developing the principles of professional ethics, and acting towards compliance with these principles	The student is prepared to responsibly perform professional roles related to tax and accounting law, adhere to ethical standards, and contribute to their development within the professional community.	[SK4] test/egzamin - ustny lub pisemny [SK5] realizacja zadania problemowego
	[PiDPMU2_W01] The graduate demonstrates deepened and systematic knowledge about tax principles, finance and tax law, knows main development trends of the scientific disciplines concerned by the studies	The student has advanced and structured knowledge of tax principles, finance, and tax law and is familiar with the main developmental trends in these fields, enabling the analysis and evaluation of their changes in both practical and theoretical contexts.	[SW4] test/egzamin - ustny lub pisemny
	[PiDPMU2_U02] He/ she is able to use the theoretical knowledge in the field of tax law, accounting and related scientific disciplines through the proper selection of sources (especially normative acts, doctrinal writing and jurisprudence) and information derived from them, making evaluation, critical analysis, synthesis, creative interpretation and presentation of this information, using appropriate methods and tools (including advanced information and communication techniques, as well as methods and tools adapted or developed from them) - which enables innovative performance of tasks that are not fully predictable, especially solving validation problems and interpretations related to the application of tax law, as well as problems of tax analysis and accounting	The student is capable of critically analyzing, interpreting, and presenting information in the fields of tax law and accounting, drawing on normative acts, literature, and case law, enabling creative and innovative problem-solving.	[SU4] test/egzamin - ustny lub pisemny
	[PiDPMU2_U05] He/she is able to conduct a debate on problems related to the application of tax, financial and accounting law	The student is able to conduct substantive debates on issues related to the application of tax law, finance, and accounting, presenting arguments based on knowledge and legal analysis.	[SU1] wypowiedź ustna/rozmowa/ dyskusja
	[PiDPMU2_K03] He/she is ready to think and act in an entrepreneurial manner, with particular emphasis on the specificity of professional activities of a tax advisor and the possibility of using tax optimization	The student demonstrates readiness for entrepreneurial thinking and action, considering the specifics of the tax advisor profession, including the application of tax optimization rules.	[SK1] wypowiedź ustna/rozmowa/ dyskusja

Course outcome	Subject outcome	Method of verification
[PiDPMU2_K01] The graduate understands the complexity of problems in the field of tax law, finance, accounting and related disciplines, and therefore is ready to critically assess the knowledge and content received in this field. He/she understands the importance of knowledge in solving cognitive and practical problems and - in case of difficulties with solving the problem - consulting experts in tax law, finance, accounting and related disciplines (especially researchers, experienced tax advisors, lawyers dealing with disciplines other than tax and balance sheet law), and, if necessary, also expert specialists in disciplines other than legal and economic sciences	The student understands the complexity of issues in tax law, finance, and accounting, is capable of critically assessing their knowledge, and seeks expert opinions when facing difficulties in problem-solving.	[SK4] test/egzamin - ustny lub pisemny
[PiDPMU2_U03] He/ she can formulate and test hypotheses related to simple research problems regarding the application of tax law, tax analysis or accounting	The student is able to formulate and test research hypotheses related to tax law, tax analysis, and accounting, utilizing research tools and scientific methodology.	[SU1] wypowiedź ustna/rozmowa/ dyskusja
[PiDPMU2_U08] He/she can independently plan and fulfill the need of lifelong learning	The student is capable of independently planning and implementing lifelong learning processes, adapting them to professional and academic needs.	[SU1] wypowiedź ustna/rozmowa/ dyskusja
[PiDPMU2_U07] He/she can manage the work of the team, as well as interact with other people as part of team work for the application of tax, balance sheet law and tax analysis	The student is able to effectively manage a team and collaborate within a group, particularly in projects related to tax law, accounting law, and tax analysis.	[SU1] wypowiedź ustna/rozmowa/ dyskusja
[PiDPMU2_K02] He/she is ready to fulfill social obligations, to inspire and organize activities for taxpayers and professional self-government of tax advisors, and to initiate activities for the public interest, including in particular balancing the divergent interests of taxpayers and tax authorities	The student is ready to undertake social responsibilities, initiate activities for taxpayers and the tax advisory community, and support public interest initiatives while balancing conflicting interests of taxpayers and tax authorities.	[SK1] wypowiedź ustna/rozmowa/ dyskusja
[PiDPMU2_W05] The graduate has systematic knowledge about ethical principles and norms related to taxes and tax law	The student has structured knowledge of the principles and ethical norms related to taxes and tax law, enabling them to act in accordance with high professional standards.	[SW1] wypowiedź ustna/rozmowa/ dyskusja
[PiDPMU2_U01] The graduate is able to use the theoretical knowledge in the field of tax law, accounting and related scientific disciplines in order to formulate and solve complex and unusual problems that may occur in this area, especially complex problems of tax analysis and accounting, especially complex validation and interpretation problems in the field of tax law and problems of tax analysis and accounting	The student is capable of applying theoretical knowledge to identify and solve complex issues in tax law and accounting, including validation and interpretation challenges and tax analysis problems.	[SU4] test/egzamin - ustny lub pisemny
[PiDPMU2_W02] He/she knows widened terminology and concepts of tax law and finance, demonstrates widened knowledge in the scope of general and formal substantive tax law and various types of economic structures and institutions.	The student knows advanced terminology and concepts in tax law and finance and possesses in-depth knowledge of substantive and procedural tax law as well as economic structures and institutions, enabling a comprehensive approach to tax issues.	[SW4] test/egzamin - ustny lub pisemny

	Course outcome	Subject outcome	Method of verification
	[PiDPMU2_U04] He/she can communicate on specialist legal, financial and tax topics with diverse audience	The student is able to communicate on legal, financial, and tax-related topics with diverse audiences, using precise specialized language and adapting the message to the audience's level of understanding.	[SU1] wypowiedź ustna/rozmowa/diskusja
