Subject objectives	This lecture introduces students to the disciplines of criminology and criminal justice. It begins with an examination of the nature of crime and how it is defined and measured in contemporary society. The course then provides an overview of the impact of criminological theories on our understanding of crime problems and the implications for criminal justice responses. Students learn about the basic issues and problems in both criminology and criminal justice.						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[CCJL3_KU02] The graduate is prepared to participate actively in groups, organizations and institutions related to broadly understood criminology and judiciary, and at the same time is able to communicate with people who are and are not specialists in criminology.	She/ he is prepared to actively participate in groups, organisations and institutions related to criminology in the broadest sense and the administration of justice, while being able to communicate with individuals	[SK2] presentation/project/paper/report [SK3] text preparation/written work
