	Number of study hours	20.0	0.0	0.0	0.0	0.0	20
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	20		0.0		55.0	75
Subject objectives	The aim of the course is to familiarize study participants with the basic concepts and issues in the field of law of new technologies and law of artificial intelligence and discuss its use in administration.						
Learning outcomes	Course outcome		Subject outcome		Method of verification		
	[ADMINL3_WG02] The graduate demonstrates fundamental knowledge about the subject of regulations of individual branches of law		The student has basic knowledge of the law of artificial intelligence and the law of new technologies		[SW4] test/exam - oral or written [SW1] oral statement/conversation/discussion [SW2] presentation/project/paper/report [SW3] text preparation/written work		
	[ADMINL3_UW01] The graduate observes and interprets social phenomena, analyzes their connections with various areas of administrative activity		The student is able to observe and interpret the use of new technologies and artificial intelligence in law and administration, and performs an appropriate analysis of their use		[SU1] oral statement/conversation/discussion [SU2] presentation/project/paper/report [SU3] text preparation/written work [SU4] test/exam - oral or written [SU5] implementation of a problem task		
	[ADMINL3_KK02] The graduate prepares responsibly for his/her work, appreciating the role of knowledge in solving professional problems		The student prepares for his or her job responsibly, appreciating the role of knowledge in solving professional problems		[SK1] oral statement/conversation/discussion [SK2] presentation/project/paper/report [SK4] test/exam - oral or written		
Subject contents	The concept, types and methods of new technologies and artificial intelligence, ethics and responsibility of artificial intelligence, the use of methods of new technologies and artificial intelligence in administration.						
Prerequisites and co-requisites							
Assessment methods and criteria	Subject passing criteria		Passing threshold		Percentage of the final grade		
	exam		50.0%		100.0%		
Recommended reading	Basic literature		It will be provided during the first classes				

	Supplementary literature	It will be provided during the first classes
	eResources addresses	Adresy na platformie eNauczanie:
Example issues/ example questions/ tasks being completed	The concept, types and methods of new technologies and artificial intelligence, the use of methods of new technologies and artificial intelligence in administration, responsibility for the products of artificial intelligence, artificial intelligence and ethics	
Work placement	Not applicable
