

Subject card

Subject name and code	The Psychology of Emission and Motivation - auditorium classes, PG_00138156						
Field of study	Criminology						
Date of commencement of studies	October 2024	Academic year of realisation of subject			2024/2025		
Education level	undergraduate studies	Subject group			Obligatory subject group in the field of study		
Mode of study	full-time studies	Mode of delivery			at the university		
Year of study	1	Language of instruction			Polish		
Semester of study	2	ECTS credits			2.0		
Learning profile	academic	Assessment form					
Conducting unit	Faculty of Law and Administration -> Rektor						
Name and surname of lecturer (lecturers)	Subject supervisor		dr Magdalena Nilidzińska				
	Teachers		dr Magdalena Nilidzińska				
Lesson types	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	0.0	20.0	0.0	0.0	0.0	20
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	20		0.0		30.0	50
Subject objectives	To familiarize students with the basic regularities of the functioning of emotional and motivational processes. Students will develop a basic network of theoretical concepts used in psychology to describe and analyze a person's behavior, feelings and experiences, which allow them to understand and explain the reasons for specific behavior in a given social and situational context. Students will learn to independently describe, analyze and explain people's behavior in various social situations, as well as disordered behavior, especially asocial and antisocial behavior.						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[KRYML3_KK01] The graduate is aware of the level of his/her knowledge and skills and understands the need for lifelong learning.	During classes, the student learns the attitude of constantly deepening knowledge.	[SK2] presentation/project/paper/report
	[KRYML3_UU03] He/she can acquire knowledge independently and develop his/her professional skills, using various sources (in native and foreign language) and modern technologies.	The student acquires skills in searching and developing knowledge regarding the proper functioning of emotional and motivational processes.	[SU3] text preparation/written work
	[KRYML3_UU02] He/she can use basic theoretical knowledge in the field of criminology and related disciplines in order to analyze, interpret and solve problems related to criminology.	Develops skills in analyzing and describing a person's behavior and internal experiences.	[SU2] presentation/project/paper/report [SU5] implementation of a problem task
	[KRYML3_KK06] He/she is aware of the need to expand competences and professional qualifications and is able to set the direction of his/her own development and education independently.	Develops empathy and motivation to understand other people and help them.	[SK5] implementation of a problem task
	[KRYML3_UW06] He/she can see and analyze moral and legal dilemmas in professional work.	Acquires the ability to independently conduct empirical verification of hypotheses regarding the influence of a person's mental properties on his or her behavior.	[SU5] implementation of a problem task
	[KRYML3_KR07] The graduate is ready to take up professional challenges and is characterized by persistence in the implementation of individual and team activities in the field of criminology and related disciplines.	Learns cooperation and cooperation in a group, develops pro-social attitudes and motives.	[SK8] observation of student's independent or team work
	[KRYML3_WG01] The graduate demonstrates fundamental knowledge of the nature of legal disciplines and crime, their place in the system of sciences and their mutual relations.	During classes, he acquires basic knowledge in the field of general psychology regarding the proper functioning of emotional and motivational processes. They also learn how and to what extent this knowledge is useful and necessary to understand and explain disordered behavior, especially antisocial and antisocial behavior.	[SW4] test/exam - oral or written [SW1] oral statement/conversation/discussion
	[KRYML3_UW01] The graduate can observe and interpret social phenomena, analyzes their relations with various areas of criminology.	Develops the ability to observe people's behavior in various situations and combine observational indicators with the internal properties of a person in accordance with specific theoretical concepts.	[SU1] oral statement/conversation/discussion [SU3] text preparation/written work
	[KRYML3_UW07] He/she has the ability to understand and analyze social phenomena and use this analysis in professional work.	During the course, the student develops his/her abilities and skills of reflective approach to theoretical concepts and the results of empirical research.	[SU5] implementation of a problem task
	[KRYML3_UK02] He/she is prepared to participate actively in groups, organizations and institutions related to criminology broadly understood, especially prevention and combating of crime, and at the same time he/she is able to communicate with people who are not specialists in criminology.	During classes, students learn an attitude of respect and ethical behavior towards people they meet professionally.	[SK6] demonstration of practical skills
	[KRYML3_UW05] He/she is able to use legal and professional principles and standards of law and profession in his/her work as a criminologist.	Acquires skills in using the principles and norms applicable in the work of a criminologist.	[SU6] demonstration of practical skills [SU8] observation of student's independent or team work

	Course outcome	Subject outcome	Method of verification
		[KRYML3_UK08] The graduate is able to communicate using various channels and communication techniques with specialists in the field of psychology, as well as with recipients outside the group of specialists, using modern technological solutions.	The student develops communication skills and abilities using modern technological solutions.
Subject contents	Expression of emotions. Stress and its impact on a person's health and behavior. Self-regulation and self-control and antisocial and antisocial behavior. Negative emotions and their importance in the etiology of criminal behavior Motivation of aggressive behavior of perpetrators of crimes, aggressive behavior and involvement in criminal activity by women Self-regulation and self-control disorders, re-education possibilities.		
Prerequisites and co-requisites			
Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
	completing a final paper - conducting research and presentation their results	51.0%	40.0%
	test	51.0%	40.0%
	oral speech	51.0%	20.0%
