

**Subject card**

Subject name and code	Basics of physical geography, PG_00143407						
Field of study	Sightseeing and Historical Tourism						
Date of commencement of studies	October 2024	Academic year of realisation of subject			2024/2025		
Education level	undergraduate studies	Subject group			Obligatory subject group in the field of study		
Mode of study	full-time studies	Mode of delivery			at the university		
Year of study	1	Language of instruction			Polish		
Semester of study	1	ECTS credits			3.0		
Learning profile	academic	Assessment form					
Conducting unit	Pracownia Badań Klimatu -> Katedra Oceanografii Fizycznej i Badań Klimatu -> Faculty of Oceanography and Geography -> Rektor						
Name and surname of lecturer (lecturers)	Subject supervisor		dr Mirosława Malinowska				
	Teachers		dr Mirosława Malinowska				
Lesson types	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	30.0	0.0	0.0	0.0	0.0	30
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	30		3.0		45.0	78
Subject objectives	Discuss the various components of the Earth's natural environment (lithosphere, pedosphere, hydrosphere, atmosphere, cryosphere and biosphere) and their interactions. Demonstrate the natural conditions for the development of tourism and sightseeing in terms of the interaction of the components of the natural environment.						
Learning outcomes	Course outcome		Subject outcome			Method of verification	
	[KiTHL3_U09] Can take part in debate; formulates theses and argues using the views of various authors of historical works in the field of professional literature known to him		Students are able to participate in debate; they formulate theses and argue using the views of various authors of historical works within the scope of the literature they are familiar with, especially in the context of the foundations of physical geography.			[SU2] presentation/project/paper/report	
	[KiTHL3_W07] Knows and understands selected issues in the field of Earth and environmental sciences, related to sightseeing and tourism		The student knows and understands selected issues in the field of earth and environmental sciences, related to sightseeing and tourism, especially in relation to the basics of physical geography.			[SW4] test/exam - oral or written [SW2] presentation/project/paper/report	
	[KiTHL3_U02] He/she is able to recognize different types of products of ancient cultures and to carry out their critical analysis and interpretation in order to determine their meanings, social impact and place in the historical and cultural process		The student is able to indicate the influence of the natural environment on the development of cultures and societies			[SU2] presentation/project/paper/report [SU4] test/exam - oral or written	

Subject contents	1. The shape and size of the Earth,2. Processes taking place in the Earth's atmosphere,3. Hydrosphere,4. Processes that shape the relief of the Earth's surface,5. Pedosphere and biosphere.6. Interactions between the various components of the natural environment.7. The Earth as a system
