Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	30		2.0		18.0	50
Subject objectives	The aim is to consolidate the content from the first semester and deepen the knowledge of selected topics in the practical phonetics of the Finnish language. The exercises are designed to demonstrate the features of Finnish pronunciation, such as the length of sounds, accents, assimilation, and sentence intonation, as well as to expand basic knowledge about the diglossic layers of the Finnish language and the Finnish dialects of the Finland area. This involves preparing the student to use this knowledge in a professional context and during presentations related to the discussed topics.						

Learning outcomes	Course outcome	Subject outcome	Method of verification
