

Subject card

Subject name and code	M.Sc. seminar - Economy, PG_00144203						
Field of study	Chemical Business						
Date of commencement of studies	February 2025	Academic year of realisation of subject			2025/2026		
Education level	postgraduate studies	Subject group		Obligatory subject group in the field of study			
Mode of study	full-time studies	Mode of delivery		at the university			
Year of study	1	Language of instruction			Polish Polish		
Semester of study	2	ECTS credits		2.0			
Learning profile	academic	Assessment form					
Conducting unit	Faculty of Economics						
Name and surname of lecturer (lecturers)	Subject supervisor		dr hab. Przemysław Kulawczuk				
	Teachers		dr hab. Marek Szczepaniec				
			dr hab. Przemysław Kulawczuk				
Lesson types	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	0.0	0.0	0.0	0.0	30.0	30
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan	Participation in consultation hours	Self-study	SUM		
	Number of study hours	30	5.0	15.0	50		
Subject objectives	<p>Students prepare an independent master's thesis and pass the master's exam through</p> <p>Developing in-depth skills in preparing and presenting oral speeches in Polish,</p> <p>Preparation to independently collect and process scientific information based on literature searches</p> <p>Learning the principles of preparing and writing substantively and formally correct scientific texts, with particular emphasis on master's thesis.</p> <p>Monitoring the progress of each student's thesis</p> <p>Preparation for the master's exam</p>						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[BCHMU2_W06] Knows and understands tasks in the field of chemistry, environmental protection and economics that are the subject of human activity to the extent that allows independent work on a research, scientific and measuring position.	Knows and understands tasks in the field of chemistry, environmental protection and economics that are the subject of human activity and knows how to include them in a master's thesis.	[SW3] text preparation/written work
	[BCHMU2_U02] Is able to define her/his interests, develop them within the chosen direction and in connection with the subject of her/his master's thesis by implementing the process of self-education and planning her/his professional career.	Is able to define his interests, develop them within the chosen field and in connection with the subject of his master's thesis, implementing the process of self-education and planning his professional career.	[SU3] text preparation/written work
	[BCHMU2_K08] Is willing to develop appropriate best practices and take up challenges in the professional and public sphere, taking into account the principles of professional ethics.	Is ready to shape appropriate patterns of conduct and take up scientific challenges in a master's thesis, taking into account the principles of professional ethics.	[SK8] observation of student's independent or team work
	[BCHMU2_U05] Is able to choose and apply, based on the literature of chemical sciences in Polish and English, appropriate methods and tools for solving problems in chemistry and related sciences.	Is able to select and apply, based on the literature on chemical and economic sciences in Polish and English, appropriate methods and tools to solve problems in a master's thesis.	[SU5] implementation of a problem task
	[BCHMU2_U04] Is able to independently plan and perform specific research tasks in the field or in the laboratory, interpret their results working individually or in a team, assuming various roles and functions including managerial.	Is able to independently plan and perform specific research tasks as part of a master's thesis and is able to interpret their results working individually or in a team of authors.	[SU5] implementation of a problem task
	[BCHMU2_U03] Is able to present, based on the current state of knowledge, scientific discoveries and the results of own research in the field of chemical and economic sciences, by skillfully conducting debates and public speaking.	Is able to present, based on the current state of knowledge, scientific discoveries and results of own research in the field of chemical and economic sciences useful for writing a master's thesis.	[SU2] presentation/project/paper/report
	[BCHMU2_W07] Knows and understands legal and economic systems of organization and management of human resources, patent information and intellectual property resources related to the chemical industry and other sectors of the economy.	Knows and understands legal and economic systems of organization and management of human resources, patent information and intellectual property resources for use in the master's thesis.	[SW1] oral statement/conversation/discussion
[BCHMU2_W05] Knows and understands the main trends in the development of chemistry combined with economics as two interpenetrating scientific disciplines.	Knows and understands the main directions of development of chemistry in combination with economics as two interpenetrating scientific disciplines and also understands how this knowledge can be included in a master's thesis.	[SW3] text preparation/written work	
Subject contents	<p>Research problems in a master's thesis in the field of economic sciences Purpose of the work, hypotheses and research theses: formulation Sources of knowledge necessary to explain the research problem: selection, selection, analysis Verification of hypotheses and research theses based on the description of the research subject and through diagnosis of the problem Determination of important aspects of the researched problem Creating development scenarios, forecasts or draft strategies in relation to the examined issues Editing the text of the master's thesis (communication, scientific language of the study, bibliographic description, error control) Methods of graphic presentation of research results Preparing paper and electronic bibliography of the work and monitoring compliance with the principles of intellectual property protection Developing a summary of the master's thesis in English</p>		
Prerequisites and co-requisites	<p>A. Formal requirements registering for a selected seminar, in accordance with the chosen specialty, in the manner specified by the dean and the specialty supervisor B. Entry requirements none</p>		
Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
	Assessment criteria, selection of a topic, development of a work plan, writing an important part of the economic part of the work.	100.0%	100.0%
