<b>Subject name and code</b>	Protection of Data and Classified Information, PG_00147416						
<b>Field of study</b>	National Security						
<b>Date of commencement of studies</b>	October 2024	<b>Academic year of realisation of subject</b>			2025/2026		
<b>Education level</b>	Bachelor's studies	<b>Subject group</b>			Obligatory subject group in the field of study Humanistic-social subject group		
<b>Mode of study</b>	full-time studies	<b>Mode of delivery</b>			at the university		
<b>Year of study</b>	2	<b>Language of instruction</b>			Polish		
<b>Semester of study</b>	4	<b>ECTS credits</b>			2.0		
<b>Learning profile</b>	practical	<b>Assessment form</b>			exam		
<b>Conducting unit</b>	Institute of Political Science -> Faculty of Social Sciences -> Rector						
<b>Name and surname of lecturer (lecturers)</b>	<b>Subject supervisor</b>		dr Piotr Robakowski				
	<b>Teachers</b>		dr Piotr Robakowski				
<b>Lesson types</b>	<b>Lesson type</b>	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	<b>Number of study hours</b>	15.0	0.0	0.0	0.0	0.0	15
	E-learning hours included: 0.0						
<b>Learning activity and number of study hours</b>	<b>Learning activity</b>	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	<b>Number of study hours</b>	15		0.0		35.0	50
<b>Subject objectives</b>	The aim of this course is to provide students with comprehensive knowledge of legal regulations related to data protection and the protection of classified information, as well as their practical application. The course content is designed to develop skills in risk analysis and management, creating data protection policies, and preparing for cooperation with supervisory authorities. Students will acquire the necessary skills for effective data protection, regulatory compliance, and education on data subject rights, including the right to information, access, and rectification.						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[BNL3_U13] Assesses the risk and possible consequences of measures taken in the area of security.	He assesses the risk and potential consequences of initiatives undertaken in the area of information security.	[SU4] test/exam - oral or written
	[BNL3_W04] Has knowledge of the functioning of internal and international security institutions and is able to define the relationships between them. Defines the fundamental dilemmas of modern civilization.	He has knowledge about the functioning of internal security institutions and the protection of classified information within the EU, NATO, and the European Space Agency, and he can define the relationships between them.	[SW4] test/exam - oral or written
	[BNL3_U09] Is aware of social expectations regarding the adequacy of state actions in the context of identified threats to its functioning.	He perceives societal expectations regarding the adequacy of state actions in light of identified threats to its functioning related to information security.	[SU4] test/exam - oral or written
	[BNL3_W06] Has knowledge of the functioning of democratic structures in civil society.	He possesses knowledge about the functioning of structures within the classified information protection system.	[SW4] test/exam - oral or written
	[BNL3_U15] Has the ability to search for information and select sources and knows research methods of social sciences. Is able to use traditional and modern information technologies, including Internet resources and other sources, to search for general information and communication.	He has the ability to search for information and select sources, and is familiar with social science research methods. He can use both traditional and modern information technologies in relation to information security.	[SU4] test/exam - oral or written
	[BNL3_U02] Analyses the causes and course of processes and their evolution relating to social, political, economic, legal, ethical and cultural aspects of security.	He analyzes the causes and progression of processes and their evolution related to the social, political, economic, legal, ethical, and cultural aspects of information security.	[SU1] oral statement/conversation/discussion
	[BNL3_K03] Has a need to continue to complete his/her knowledge as well as expand and improve skills.	He possesses advanced knowledge of the social, historical, economic, and cultural contexts of information security.	[SK1] oral statement/conversation/discussion
	[BNL3_U06] Is able to analyse the causes and effects of security threats and indicates countermeasures. Plans own and team's work in the field of threat analysis and risk assessment.	He can analyze the causes and effects of information security threats, identify risks, and select appropriate security measures.	[SU4] test/exam - oral or written
	[BNL3_K04] Is prepared to be active in the labour market and is aware of the need to improve qualifications for responsible performance of professional roles.	He is prepared for active participation in the job market and understands the necessity of continuously improving qualifications to responsibly fulfill professional roles.	[SK1] oral statement/conversation/discussion
	[BNL3_W13] Knows and understands the principles of intellectual property law. Has knowledge in the field of copyright protection and industrial property protection.	He knows and understands the principles of intellectual property law. He possesses knowledge in the areas of copyright protection and industrial property protection.	[SW4] test/exam - oral or written
	[BNL3_W10] Has knowledge of the activities of public institutions working to promote security.	He possesses knowledge about the activities of public institutions working towards information security.	[SW4] test/exam - oral or written
	[BNL3_U11] Interprets the relationships between entities involved in activities for internal and international security. Undertakes discussions at an advanced level in the area of security.	He interprets the relationships between entities involved in activities aimed at the protection of personal data and classified information.	[SU1] oral statement/conversation/discussion
	[BNL3_U04] Uses the knowledge of normative systems related to public safety to adequately respond to the existing challenges. Presents and evaluates opinions on systematic solutions in the field of security.	He possesses knowledge of normative systems concerning data protection and the protection of classified information.	[SU4] test/exam - oral or written

	Course outcome	Subject outcome	Method of verification
	[BNL3_W01] Has advanced knowledge of the social, historical, economic and cultural determinants of security. Knows the practical application of this knowledge in professional activities in the field of security.	He has advanced knowledge of the social, historical, economic, and cultural conditions of information security.	[SW5] implementation of a problem task
	[BNL3_U16] Uses the acquired knowledge of information techniques to create multimedia presentations in the field of security issues.	He uses his knowledge of information techniques to create multimedia presentations on information security issues.	[SW1] oral statement/ conversation/discussion
