Subject objectives	The course aims to provide students with comprehensive knowledge of basic concepts and theories related to the state security system, analyze contemporary threats, risk assessment methods, and crisis management strategies. Students will learn about legal regulations, security policies, and the roles of various state institutions. They will be taught to plan and implement security strategies, understand the importance of international cooperation, and apply theoretical knowledge in practice through case studies and simulations.						
Learning outcomes	Course outcome	Subject outcome			Method of verification		
	[BNMU2_U04] Uses advanced knowledge of normative systems regarding public safety to respond to emerging challenges adequately.	He has advanced knowledge of normative systems related to public security, enabling him to respond appropriately to emerging challenges.			[SU4] test/exam - oral or written
