

**Subject card**

<b>Subject name and code</b>	Semantics and French syntaxe, PG_00147711						
<b>Field of study</b>	Romance Studies						
<b>Date of commencement of studies</b>	October 2024	<b>Academic year of realisation of subject</b>			2024/2025		
<b>Education level</b>	Bachelor's studies	<b>Subject group</b>			Obligatory subject group in the field of study Subject group related to scientific research in the field of study		
<b>Mode of study</b>	full-time studies	<b>Mode of delivery</b>			at the university		
<b>Year of study</b>	1	<b>Language of instruction</b>			Polish - French at a rate of 70.00% - Polish at a rate of 30.00%		
<b>Semester of study</b>	2	<b>ECTS credits</b>			3.0		
<b>Learning profile</b>	academic	<b>Assessment form</b>					
<b>Conducting unit</b>	Division of Romance Linguistics -> Institute of Romance Philology -> Faculty of Languages -> Rector						
<b>Name and surname of lecturer (lecturers)</b>	<b>Subject supervisor</b>		dr hab. Izabela Pozierak-Trybisz				
	<b>Teachers</b>		dr hab. Izabela Pozierak-Trybisz				
<b>Lesson types</b>	<b>Lesson type</b>	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	<b>Number of study hours</b>	30.0	0.0	0.0	0.0	0.0	30
	E-learning hours included: 0.0						
<b>Learning activity and number of study hours</b>	<b>Learning activity</b>	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	<b>Number of study hours</b>	30		2.0		43.0	75
<b>Subject objectives</b>	Issues concerning the complex relationships between the planes of semantics and syntax in French and their practical applications in linguistic analysis.						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[FRL3_W05] Has general knowledge covering French terminology, theory and methodology in linguistics.	Students will be familiar with the necessary linguistic terminology in French concerning semantic-component relations, combinatorics of meaning, grammar of French. Has a basic general knowledge of French theory and methodology concerning semantic-component analyses.	[SW4] test/exam - oral or written [SW1] oral statement/ conversation/discussion
	[FRL3_K01] He understands the need for continuous professional training and personal development, is aware of his knowledge and workshop skills, sets the direction of his development.	Students will understand the need for continuous professional development in the field of linguistics and scientific personal development, is aware of his/her of his/her knowledge and workshop skills concerning semantic analysis, sets directions for his/her own development.	[SK1] oral statement/conversation/ discussion [SK4] test/exam - oral or written
	[FRL3_W03] Knows advanced linguistic terminology in French.	Students will be familiar with the necessary linguistic terminology in French concerning semantic-component relations, combinatorics of meaning, grammar of French.	[SW4] test/exam - oral or written [SW1] oral statement/ conversation/discussion
	[FRL3_U07] Can use basic concepts of linguistics in typical professional situations.	Students will be able to use basic concepts of linguistic semantics in typical professional situations.	[SU1] oral statement/conversation/ discussion [SU4] test/exam - oral or written
	[FRL3_U09] Has the ability to substantively justify formulated theses, is able to use the views of other authors and formulate conclusions.	Students will learn to substantiate their theses concerning semantic and grammatical analyses, they will be able to use the opinions of other authors and formulate conclusions on the use of grammatical forms in the context of grammatical analysis. The student will be able to use the views of other authors and formulate conclusions about the use of grammatical forms on the basis of semantic analyses. on the basis of semantic analyses.	[SU1] oral statement/conversation/ discussion [SU4] test/exam - oral or written
[FRL3_U03] Knows and can use the main research methods and tools, develops and presents results in the field of linguistics.	Students will be able to use basic methods and research tools in the field of semantic-component interrelationships, develop and present the results of semantic-component analyses.	[SU1] oral statement/conversation/ discussion [SU4] test/exam - oral or written	
Subject contents	Main programme content: - de Saussure's definition of language, the mechanism of double articulation of language and Jakobson's scheme of linguistic communication as a starting point for considering the relations of sense and form, - elements of general theoretical problems of semantics: relations of thought and language, definitions of the notion of meaning, contemporary linguistic theories, combinatorics of meaning as a basis for language communication, semantic problems of computer linguistics, - specific problems of semantic-compositional-pragmatic analysis of language: polysemy and ways of defining meaning (semantics and its aspect), sense structures and syntactic constructions (predicate-argument structures and their realisations in natural language), meaning in language and discourse (examples of semantic analysis of sentences and texts).		
Prerequisites and co-requisites	Credit for the course Elements of general linguistics I.		
Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
	written assessment - open questions	51.0%	100.0%
