

**Subject card**

<b>Subject name and code</b>	Questionnaire designing - auditorium classes, PG_00149016						
<b>Field of study</b>	Sociology						
<b>Date of commencement of studies</b>	October 2024	<b>Academic year of realisation of subject</b>			2024/2025		
<b>Education level</b>	Master's studies	<b>Subject group</b>			Obligatory subject group in the field of study Subject group related to scientific research in the field of study		
<b>Mode of study</b>	full-time studies	<b>Mode of delivery</b>			at the university		
<b>Year of study</b>	1	<b>Language of instruction</b>			Polish		
<b>Semester of study</b>	2	<b>ECTS credits</b>			3.0		
<b>Learning profile</b>	academic	<b>Assessment form</b>			credit		
<b>Conducting unit</b>	Institute of Sociology -> Faculty of Social Sciences -> Rector						
<b>Name and surname of lecturer (lecturers)</b>	<b>Subject supervisor</b>		dr Piotr Zbieranek				
	<b>Teachers</b>		dr Piotr Zbieranek				
<b>Lesson types</b>	<b>Lesson type</b>	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	<b>Number of study hours</b>	0.0	15.0	0.0	0.0	0.0	15
	E-learning hours included: 0.0						
<b>Learning activity and number of study hours</b>	<b>Learning activity</b>	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	<b>Number of study hours</b>	15		2.0		58.0	75
<b>Subject objectives</b>	The course's goal is for students to acquire knowledge and skills useful for constructing various questionnaires, which are valuable in identifying diverse research issues addressed by sociologists.						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[SOCMU2_U06] The graduate uses the acquired knowledge to solve dilemmas arising in professional work, can critically evaluate the effectiveness and usefulness of sociological knowledge in various areas of work	The graduate uses their acquired knowledge to resolve dilemmas related to constructing questionnaires (e.g., designing questions concerning sensitive issues).	[SU1] oral statement/conversation/discussion [SU2] presentation/project/paper/report [SU8] observation of student's independent or team work
	[SOCMU2_K04] The graduate recognizes and correctly solves dilemmas connected with his/her profession	Thanks to the knowledge of the methodology related to the construction of questionnaire interviews, he is able to recognize and, as a result, accurately resolve dilemmas related to the profession of a sociologist as a researcher.	[SK1] oral statement/conversation/discussion [SK2] presentation/project/paper/report [SK8] observation of student's independent or team work
	[SOCMU2_U04] The graduate is able to forecast and model complex social processes and phenomena in various areas of social life on the basis of sociological knowledge using advanced methods of sociological research	Can forecast and model complex social processes and phenomena in various areas of social life based on sociological knowledge, which can be acquired using the benefits of skilful use of an advanced method of sociological research, which is a broadly understood questionnaire interview.	[SU1] oral statement/conversation/discussion [SU2] presentation/project/paper/report [SU8] observation of student's independent or team work
	[SOCMU2_W06] The graduate has in-depth knowledge and understanding of quantitative and qualitative methods of sociological research, including observation, interview, document analysis and desk research, and how to develop and report research findings	Knows and understands to an in-depth degree the issues related to the so-called quantitative methods in sociological research, especially those based on interview and survey questionnaires, and knows the methods of developing and reporting the results of research based on such questionnaires.	[SW1] oral statement/conversation/discussion [SW2] presentation/project/paper/report
	[SOCMU2_U08] The graduate is able to analyse and understand many current social phenomena in the context of knowledge about the mechanisms of human activity, the impact of a group on an individual, the processes of change in Polish, European and world society, and is able to relate his/her understanding of these phenomena to theoretical explanations and results of social research	Is able to analyse and understand many current social phenomena in the context of knowledge about the mechanisms of human action, the impact of a group on an individual, the processes of change in Polish society, Europe and the world, which we obtain largely thanks to quantitative research. He/she is able to relate his/her understanding of these phenomena to theoretical explanations and results of empirical research obtained by surveys and standardized sociological interviews.	[SU1] oral statement/conversation/discussion [SU2] presentation/project/paper/report [SU8] observation of student's independent or team work
	[SOCMU2_U07] The graduate is able to independently propose solutions to a specific problem in the field of sociology based on carrying out appropriate research procedures	The graduate is able to independently propose solutions for issues related to the construction of questionnaire tools.	[SU1] oral statement/conversation/discussion [SU2] presentation/project/paper/report [SU8] observation of student's independent or team work
Subject contents	<p>Tasks performed by students individually and in small groups focused on creating various segments of research tools tailored to a chosen research project.</p> <p>Discussion on methodological issues arising during classes.</p>		
Prerequisites and co-requisites	<p>Advancement to the second semester of study</p> <p>Knowledge from courses;</p> <p>Elements of statistics and quantitative data analysis</p> <p>Methodological development in sociology</p>		
Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
	Completing a research task	51.0%	100.0%
