

Subject card

Subject name and code	, PG_00149740						
Field of study	Spatial Management						
Date of commencement of studies	October 2024	Academic year of realisation of subject				2026/2027	
Education level	Bachelor's studies	Subject group				Obligatory subject group in the field of study Humanistic-social subject group	
Mode of study	full-time studies	Mode of delivery				at the university	
Year of study	3	Language of instruction				Polish	
Semester of study	5	ECTS credits				10.0	
Learning profile	academic	Assessment form				credit	
Conducting unit	Institute of Socio-Economic Geography and Spatial Management -> Faculty of Social Sciences -> Rector						
Name and surname of lecturer (lecturers)	Subject supervisor		dr Grażyna Chaberek-Kałużniak				
	Teachers						
Lesson types	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	0.0	0.0	0.0	0.0	30.0	30
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	30		30.0		200.0	260
Subject objectives	Acquisition of the ability to write an academic paper, including thesis statement, proving the thesis statement, constructing a paper, to make appropriate conclusions, to acquire the ability to critically evaluate social and economic changes, to acquire the ability to speak in a public discussion Apply the skills acquired during the course of study in the field of research methods and tools.						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[GPL3_W10] concepts and principles in the field of intellectual property and copyright protection	lists the basic principles for the selection of literature sources and other data in accordance with copyright law	[SW1] oral statement/ conversation/discussion
	[GPL3_W02] problems, theories and trends in spatial management, taking into account aspects of the natural environment; understands their theoretical and practical significance	presents the research problem discussed in the bachelor's thesis in the context of contemporary socio-economic processes and trends in theoretical terms and taking into account the latest practical solutions	[SW1] oral statement/ conversation/discussion
	[GPL3_W01] at an advanced level, the interdisciplinary nature of spatial management and the need for multidimensional approaches in spatial policy	provides hypotheses for solutions to research problems in spatial economics, taking into account its interdisciplinary character	[SW1] oral statement/ conversation/discussion
	[GPL3_K06] care for the achievements and traditions of the profession, and comply with the principles of professional ethics by themselves and to demand that from others	follows the principles of a fair research process, respects recognised scientific authorities in socio-economic geography and spatial management in Poland and worldwide, observes the principles of anti-plagiarism law	[SK1] oral statement/conversation/ discussion [SK6] demonstration of practical skills
	[GPL3_U08] perform complex research tasks or expertise in the field of spatial management under the guidance of a scientific supervisor, alone and in a team, and present the results of the research in a written and oral form in Polish and in a foreign language	carries out a complex research task and develops it into a written undergraduate thesis	[SU1] oral statement/conversation/ discussion [SU6] demonstration of practical skills
[GPL3_U09] plan and implement lifelong learning independently	identifies the level of his/her knowledge and the actions that can be taken to improve his/her knowledge and skills after completing his/her first degree	[SU1] oral statement/conversation/ discussion [SU6] demonstration of practical skills	
Subject contents	Presentation of the specificity of scientific research carried out in individual organisational units of IGSEiGP UG. Presentation of the substantive scope of diploma theses in a specific field of socio-economic geography and spatial economy, including including sources and possibilities of obtaining data. Discussion of the principles of: respect for authorship in scientific papers, identification of research problems, determination of the scope (substantive, temporal and spatial) and objectives of the work (cognitive, applied, methodological). Establishing research theses/hypotheses, research procedure and selection of appropriate research methods. Creating the structure and layout of the thesis.		
Prerequisites and co-requisites	Knowledge of methods of cartographic presentation, ability to apply cartographic techniques, process geographical information, knowledge of knowledge of spatial behaviour patterns of the population, ability to identify cause and effect relationships between social and economic development processes in Poland and worldwide. socio-economic development processes in Poland, knowledge of principles, tools, trends in spatial planning and development in Poland and worldwide.		
Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
	Evaluation of sub-tasks	51.0%	100.0%
Recommended reading	Basic literature	Bielec E., Bielec J.. 2007, Podręcznik pisanie prac. Wyd. EJB, Kraków. Oliver P., 1999. Jak pisać prace uniwersyteckie: poradnik dla studentów. Wydawnictwo Literackie, Kraków	
	Supplementary literature	chosen by the student depending on the subject of the bachelor's thesis	
	eResources addresses		
Example issues/ example questions/ tasks being completed	Timeliness of completion of the various research steps, commitment to the of the research process, factual correctness		
Work placement	Not applicable
