

Subject card

Subject name and code	MA Seminar B, PG_00149776						
Field of study	Spatial Management						
Date of commencement of studies	October 2024	Academic year of realisation of subject				2024/2025	
Education level	Master's studies	Subject group				Obligatory subject group in the field of study Humanistic-social subject group	
Mode of study	full-time studies	Mode of delivery				at the university	
Year of study	1	Language of instruction				Polish	
Semester of study	2	ECTS credits				8.0	
Learning profile	academic	Assessment form				credit	
Conducting unit	Institute of Socio-Economic Geography and Spatial Management -> Faculty of Social Sciences -> Rector						
Name and surname of lecturer (lecturers)	Subject supervisor		dr Maciej Tarkowski				
	Teachers		prof. dr hab. inż. Monika Trojanowska dr hab. Mariusz Kistowski prof. dr hab. Iwona Sagan dr Maciej Tarkowski				
Lesson types	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	0.0	0.0	0.0	0.0	30.0	30
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	30		30.0		150.0	210
Subject objectives	The aim of the course is to prepare students for the independent writing of scientific papers and the presentation of the results of these papers. Substantive support in the preparation and editing of master's theses by students.						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[GPMU2_W01] to an in-depth degree the interdisciplinary nature of spatial management and ordered and theoretically founded knowledge of multidimensional approaches in spatial policy	presents the research problem addressed in the thesis in the context of contemporary socio-economic processes and trends in theoretical terms and taking into account the latest practical solutions	[SW2] presentation/project/paper/report
	[GPMU2_W06] problems and theories in spatial management, taking into account complex dependencies and trends of changes in the natural environment; understands their theoretical and practical significance	presents the research problem addressed in the thesis in the context of contemporary socio-economic processes and trends in theoretical terms and taking into account the latest practical solutions	[SW2] presentation/project/paper/report
	[GPMU2_K01] critically assess possessed knowledge and received content	verifies the materials and information obtained for their usefulness in the research process	[SK2] presentation/project/paper/report
	[GPMU2_U09] independently plan own professional or scientific career and guide others in this respect	identifies the tasks and attitudes that are associated with academic and research work	[SU2] presentation/project/paper/report
	[GPMU2_U01] formulate and solve complex and unusual problems of spatial management and propose their innovative solutions taking into account the unpredictability of spatial processes	identifies problems of interest in spatial management and constructs a process to explain/solve them	[SU2] presentation/project/paper/report
	[GPMU2_K04] develop the profession's achievements, upholding its ethos, observe the principles of professional ethics by themselves and demanding it from others	adheres to the principles of a fair research process, respects recognised scientific authorities in the field of spatial planning in Poland and worldwide, observes the principles of anti-plagiarism law	[SK2] presentation/project/paper/report [SK6] demonstration of practical skills
	[GPMU2_U05] formulate and test hypotheses regarding determinants (natural, social, economic, cultural, legal) of spatial management	constructs research questions and hypotheses on spatial economic processes	[SU2] presentation/project/paper/report
	[GPMU2_U06] organize and lead a debate among diverse audiences regarding spatial conflicts with particular emphasis on environmental conflicts	prepares scientific work in a way that ensures the communication of specialised topics to a diverse audience	[SU2] presentation/project/paper/report
[GPMU2_U07] perform complex research tasks or expertise in the field of spatial management by interacting with other people, taking a leading role in teams and present the results of the research in a written and oral form using specialised terminology	carries out a complex research task and develops it into a written thesis	[SU2] presentation/project/paper/report	
Subject contents	Establishing research theses/hypotheses, research procedure and selection of appropriate research methods. Creating the structure and layout of the thesis.		
Prerequisites and co-requisites	Knowledge of: the basics of physical and socio-economic geography, including knowledge of the structure of the geographical environment and interactions; knowledge of the structure of the geographical environment and the interactions between its components, as well as the conditions and factors shaping its spatial differentiation; knowledge of research methodologies and techniques applied in physical and socio-economic geography; knowledge of research methodologies and techniques used in physical and socio-economic geography; knowledge of basic literature on physical and socio-economic geography. The ability to organise individual work independently, search for and synthesise information from a variety of sources, read professional literature with comprehension. sources, read professional literature with comprehension (including in English), present the results of scientific research (own and foreign) in a public forum. in a public forum.		
Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
	completion of the master's thesis in accordance with the timetable	51.0%	100.0%
