

**Subject card**

<b>Subject name and code</b>	Theories and concepts in socio-economic geography, PG_00149808						
<b>Field of study</b>	Socio-economic geography with elements of GIS						
<b>Date of commencement of studies</b>	October 2024	<b>Academic year of realisation of subject</b>			2024/2025		
<b>Education level</b>	Master's studies	<b>Subject group</b>			Obligatory subject group in the field of study Humanistic-social subject group		
<b>Mode of study</b>	full-time studies	<b>Mode of delivery</b>			at the university		
<b>Year of study</b>	1	<b>Language of instruction</b>			Polish		
<b>Semester of study</b>	1	<b>ECTS credits</b>			3.0		
<b>Learning profile</b>	academic	<b>Assessment form</b>			exam		
<b>Conducting unit</b>	Division of Socio-Economic Geography -> Institute of Socio-Economic Geography and Spatial Management -> Faculty of Social Sciences -> Rector						
<b>Name and surname of lecturer (lecturers)</b>	<b>Subject supervisor</b>		dr Grzegorz Masik				
	<b>Teachers</b>		dr Grzegorz Masik				
<b>Lesson types</b>	<b>Lesson type</b>	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	<b>Number of study hours</b>	30.0	0.0	0.0	0.0	0.0	30
	E-learning hours included: 0.0						
	Additional information:  lecture						
<b>Learning activity and number of study hours</b>	<b>Learning activity</b>	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	<b>Number of study hours</b>	30		15.0		30.0	75
<b>Subject objectives</b>	<p>Introduction to basic theories and concepts in the field of socio-economic geography;</p> <p>Critical interpretation of research trends;</p> <p>Demonstrating the connections between theory and practice of socio-economic life</p>						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[GSEMU2_W06] problems and theories in socio-economic geography, taking into account the complex relationships and trends of changes in the natural and anthropogenic environment; understands their theoretical and practical significance	explains theories regarding the influence of a factor anthropogenic impact on the natural environment and describes their practical use in the fight against the harmful effects of human activity	[SW4] test/exam - oral or written
	[GSEMU2_W05] the latest development trends in the field of socio-economic geography	recognizes and defines economic and social trends	[SW4] test/exam - oral or written
	[GSEMU2_W01] in-depth modern socio-economic processes as well as ordered and theoretically founded knowledge of socio-economic geography in connection with related natural and social scientific disciplines	explains the relationship between processes and phenomena occurring in the anthropogenic environment with sociology, economics and ecology	[SW4] test/exam - oral or written
	[GSEMU2_U05] formulate and test hypotheses regarding determinants and factors (natural, social, economic, cultural) of processes occurring in socio-economic space	constructs hypotheses regarding solutions to problems related to the negative impact of socio-economic factors on the natural environment	[SU4] test/exam - oral or written
Subject contents	Topics of the lecture: A1. Socio-economic geography: between economics and sociology 1.1. Economic perspective 1.2. A social science perspective A2. Man 2.1. Population potential and its importance 2.2. Human capital 2.3. Social capital A3. Environment 3.1. Environment as a resource 3.2. Ecological safety A4. Spatial socio-economic systems 4.1. Regional socio-economic structures 4.2. Cities and city-regions 4.3 Systems of global connections and flows		
Prerequisites and co-requisites	Knowledge: knows and understands basic issues and terminology in the field of socio-economic geography. Skills: demonstrates the ability to read and understand the literature on the subject in the native language and English and to communicate at the level appropriate for the second cycle of studies; demonstrates critical thinking skills.		
Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
	1 point for each answer to a question in the exam. (total 10 points). Additionally, 1 point for participating in the discussion each time.	51.0%	100.0%
