

**Subject card**

Subject name and code	Supporting motor development and reflex therapy, PG_00150078						
Field of study	Special Pedagogy						
Date of commencement of studies	October 2024	Academic year of realisation of subject			2028/2029		
Education level	uniform Master's studies	Subject group			Obligatory subject group in the field of study		
Mode of study	full-time studies	Mode of delivery			at the university		
Year of study	5	Language of instruction			Polish		
Semester of study	9	ECTS credits			3.0		
Learning profile	academic	Assessment form			exam		
Conducting unit	Division of Special Education -> Institute of Education -> Faculty of Social Sciences -> Rector						
Name and surname of lecturer (lecturers)	Subject supervisor		dr Marta Jurczyk				
	Teachers						
Lesson types	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	30.0	0.0	0.0	0.0	0.0	30
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	30		0.0		50.0	80
Subject objectives	The subject is intended to equip students with knowledge about the specificity of working with children with developmental threats due to motor/disabilities from infancy to preschool age, to present existing methods of therapy for these children and their application to children with specific diagnostic indications. It focuses on practical knowledge regarding how to use particular methods when working with a small child. The subject aims to present existing methods of reflex therapy and show their application to children with specific diagnostic indications.						
Learning outcomes	Course outcome		Subject outcome		Method of verification		
	[PEDSPECJ5_W06] He/she knows and understands in an in-depth way aetiology and symptomatology of man's developmental disorders and disabilities and his/her functioning		knows and understands in-depth the etiology and symptomatology of reflex disorders and motor disorders		[SW4] test/exam - oral or written		
Subject contents	Specificity of pedagogical work with a developmentally at-risk/disabled child from infancy to preschool age. Stages of introducing individual methods/forms of classes (in the family, individual, group, classes). Areas of the educator's influence: supporting cognitive, motor and graphomotor functions. Specificity and classification of reflexes. Specificity of pedagogical work with a developmentally at-risk/disabled child from infancy to school age. Specificity of introducing individual methods/forms of classes (in the family, individual, group, classes). The use of individual reflex therapies in working with a child with specific diagnostic indications.						
Prerequisites and co-requisites							
Assessment methods and criteria	Subject passing criteria		Passing threshold		Percentage of the final grade		
	Final exam		51.0%		100.0%		
Recommended reading	Basic literature		A.1. used during classes  J. Belszyński (ed.), Therapies supporting the development of people with autism, Kraków 2005.J. Cieszyńska, Early therapeutic intervention: stimulation of child development: from newborn to 6 years of age, Kraków 2007.W. Pilecka, J. Pilecki, Stimulation of psychomotor development of children with reduced mental abilities, Kraków 1996.W. Sherborne, Development movement for children, Warsaw 1997.				

	Supplementary literature	A.2. studied independently by the student Z. Szot (ed.), Early support for children with development problems, Gdańsk 2004. M. Piszczek, Early intervention and help for disabled children, Warsaw 1995
