

Subject card

Subject name and code	Articulatory phonetics and acoustic phonetics, PG_00150240						
Field of study	English Studies						
Date of commencement of studies	October 2024	Academic year of realisation of subject			2024/2025		
Education level	Master's studies	Subject group			Obligatory subject group in the field of study Optional subject group Subject group related to scientific research in the field of study		
Mode of study	full-time studies	Mode of delivery			at the university		
Year of study	1	Language of instruction			English		
Semester of study	1	ECTS credits			2.0		
Learning profile	academic	Assessment form					
Conducting unit							
Name and surname of lecturer (lecturers)	Subject supervisor		dr hab. Tomasz Ciszewski				
	Teachers		dr hab. Tomasz Ciszewski				
Lesson types	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	0.0	30.0	0.0	0.0	0.0	30
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	30		0.0		5.0	35
Subject objectives	In the field of articulatory phonetics, the student becomes acquainted with the human articulatory apparatus, functions of the speech organs, the allophonic system of the English language and the principles of allophonic transcription. In the field of acoustic phonetics, the student becomes acquainted with speech analysis software (PRAAT, Audacity), the basics of spectrographic speech analysis, formant analysis F1 and F2, intensity and frequency, principles of speech segmentation and identification of occlusion areas, formant transitions, periodic and aperiodic vibrations.						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[FAMU2_W07] Knows and understands to an in-depth extent selected issues constituting advanced detailed knowledge in the field of linguistics, including, in particular, research into the English language.	Knows and understands the main developments and trends of English-language linguistics, with particular emphasis on articulation and acoustic phonetics. (K_W07)	[SW4] test/exam - oral or written
	[FAMU2_W05] Knows and understands advanced terminology in the field of linguistics, in particular those used in English language studies.	He knows in depth, in Polish and English, advanced terminology in the field of articulatory phonetics and acoustic phonetics within the framework of English philology. (K_W03)	[SW4] test/exam - oral or written
	[FAMU2_U01] Can innovatively perform analytical and interpretative tasks, formulate and solve complex and unusual problems, and set and test simple research hypotheses in the field of English linguistics and research into English literature, using the acquired subject knowledge and linguistic and literary methodological and theoretical approaches.	Can properly use the acquired subject knowledge in order to formulate and solve research problems and perform innovative tasks in the field of articulation and acoustic phonetics, selecting and using appropriate methods and tools, including advanced information and communication techniques (K_U01)	[SU4] test/exam - oral or written
	[FAMU2_U06] Can communicate in speech and writing in English and Polish with diverse audiences on specialized topics in the field of linguistics and literature, also using advanced specialized terminology.	Can communicate orally and in writing in Polish and English with diverse audiences on specialist topics in the field of articulation phonetics and acoustic phonetics, using advanced specialist terminology in the field of linguistics. (K_U03)	[SU4] test/exam - oral or written
	[FAMU2_U07] Can lead a debate on linguistics and literature within the framework of English Philology, present and evaluate various opinions and positions, and discuss them in English and Polish.	Is able to conduct a debate, in particular on topics related to linguistics, especially phonetics	[SU4] test/exam - oral or written
	[FAMU2_K01] Is ready to critically evaluate the extent of their knowledge and skills, in particular in the field of English-language linguistics and literature and English.	Is ready to critically assess their knowledge in the field of articulatory and acoustic phonetics and recognizes the importance of this knowledge in solving cognitive and practical problems. Understands the necessity of continuous training and development. (K_K01)	[SK4] test/exam - oral or written
[FAMU2_W03] Knows and understands in depth advanced research methodologies and theories in the field of English linguistics.	Has ordered, advanced detailed knowledge in the field of articulatory phonetics and acoustic phonetics within the framework of English philology. (K_W05)	[SW4] test/exam - oral or written	
Subject contents	<p>speech organs and their functions description and classification of English vowels and consonants allophonic variants phonetic processes in combined speech phonetic symbols (IPA) wide transcription narrow transcription elements</p> <p>spectrogram analysis</p>		
Prerequisites and co-requisites	selection of NLP specialisation		
Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
		51.0%	100.0%
