

Subject card

Subject name and code	Optional Subject of Speech Therapy III, PG_00150732						
Field of study	Logopedics						
Date of commencement of studies	October 2024	Academic year of realisation of subject			2028/2029		
Education level		Subject group			Obligatory subject group in the field of study Optional subject group Subject group related to practical vocational preparation		
Mode of study	full-time studies	Mode of delivery			at the university		
Year of study	5	Language of instruction			Polish		
Semester of study	9	ECTS credits			2.0		
Learning profile	practical	Assessment form					
Conducting unit	Instytut Logopedii -> Faculty of Languages						
Name and surname of lecturer (lecturers)	Subject supervisor		dr hab. Małgorzata Ročławska-Daniluk				
	Teachers						
Lesson types	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	0.0	15.0	0.0	0.0	0.0	15
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	15		1.0		34.0	50
Subject objectives	To familiarize students with the typical working tools of speech therapists, with an emphasis on comprehensive knowledge of information sources and the ability to evaluate them critically.						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[LOGJ5_U01] Able to distinguish methodological orientations in scientific research, search, analyze, evaluate, select and integrate information in the field of linguistics (including speech therapy) using various sources, selection and application of appropriate methods and tools, including advanced information and communication technologies (ICT) in order to formulate critical judgments on this basis, solve complex problems and carry out tasks in an innovative manner.	Is able to acquire and use theoretical knowledge, combining it with practical skills, independently plan and implement specific speech therapy activities in the field of diagnosis, prevention and therapy of speech disorders, chooses and applies the appropriate course of action. Seeks, selects, analyses, interprets and uses information to prepare oral and written speeches on specific speech therapy issues using a variety of sources.	[SU3] text preparation/written work
	[LOGJ5_W01] Has a structured, in-depth and extended knowledge and knows at an extended level the terminology of linguistics and speech therapy (including selected terminology in a foreign modern language).	Knows basic and extended terminology in speech therapy research.	[SW2] presentation/project/paper/report
	[LOGJ5_U02] Independently plans and implements original and innovative linguistic and speech therapy projects, in accordance with the development trends of linguistics and speech therapy and related to the selected sphere of speech therapy activity.	Undertakes educational activities specific to speech therapy that meet the needs of the community group, such as lectures for teachers.	[SU5] implementation of a problem task
	[LOGJ5_W03] He knows the principles of speech therapy prevention and stimulation of normal speech and language development, as well as the theoretical basis of intervention activities for individuals and social groups in the scope necessary for the direction of speech therapy. He has knowledge of linguistics and speech therapy that allows him to independently program activities aimed at preventing speech disorders in individuals at risk of developing them.	Knows the basic principles of speech therapy prevention and stimulation of normal speech development, as well as the principles of speech therapy in diagnosis and therapy.	[SW5] implementation of a problem task
	[LOGJ5_U03] He has the ability to interpret, analyze the causes and course of linguistic and communicative processes and phenomena, substantively argue using his own views and those of other authors, formulate conclusions and create synthetic summaries using the appropriate terminology of linguistics, sociolinguistics and ethnoinguistics and medical sciences relevant to speech therapy.	Can correctly analyze and interpret linguistic and language phenomena from a speech therapy point of view.	[SU3] text preparation/written work
	[LOGJ5_K05] He is ready to build proper ties in the social environment and to initiate activities for the benefit of the social environment, prepared to responsibly perform the professional roles of a teacher and school speech therapist, including adherence to the principles of professional ethics and demanding this of others, as well as caring for the achievements and traditions of the profession.	Is prepared to fulfill the professional roles of teacher and school speech therapist in a responsible manner, adheres to the principles of professional ethics and requires others to do so, while caring for the achievements and traditions of the profession.	[SK8] observation of student's independent or team work
