

Subject card

Subject name and code	Neurological Testing of Patients, PG_00151496						
Field of study	Logopedics						
Date of commencement of studies	October 2024	Academic year of realisation of subject			2024/2025		
Education level	Master's studies	Subject group			Obligatory subject group in the field of study Subject group related to practical vocational preparation		
Mode of study	full-time studies	Mode of delivery			at the university		
Year of study	1	Language of instruction			Polish		
Semester of study	2	ECTS credits			1.0		
Learning profile	practical	Assessment form			credit		
Conducting unit	Institute of Logopaedics -> Faculty of Languages -> Rector						
Name and surname of lecturer (lecturers)	Subject supervisor		dr n. med. Seweryna Konieczna				
	Teachers		dr n. med. Seweryna Konieczna				
Lesson types	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	10.0	0.0	0.0	0.0	0.0	10
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	10		1.0		14.0	25
Subject objectives	After completing the lectures, the student should know the definitions of neurological syndromes and their etiology. He should be able to characterize the axial symptoms of syndromes. After completing the lecture, the student should know the methods of neurological examination.						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[LOGMU2_U13] He is able to plan and implement his own learning in the social and medical sciences relevant to speech therapy.	is able to use various sources of knowledge, including medical and social sciences, for the purpose of self-education	[SU4] test/exam - oral or written
