

Subject card

Subject name and code	Voice Disorders, PG_00151607						
Field of study	Logopedics						
Date of commencement of studies	October 2024	Academic year of realisation of subject			2024/2025		
Education level	postgraduate studies	Subject group			Obligatory subject group in the field of study Subject group related to practical vocational preparation		
Mode of study	part-time studies	Mode of delivery			at the university		
Year of study	1	Language of instruction			Polish Polish		
Semester of study	2	ECTS credits			2.0		
Learning profile	practical	Assessment form					
Conducting unit	Instytut Logopedii -> Faculty of Languages						
Name and surname of lecturer (lecturers)	Subject supervisor		dr Ewa Binkuńska				
	Teachers						
Lesson types	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	15.0	0.0	0.0	0.0	0.0	15
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	15		2.0		33.0	50
Subject objectives	Features of normal voice by gender, voice disorders in acute and chronic inflammation, voice of deaf and hard of hearing children, voice disorders due to neurological, psychogenic and hormonal disorders, voice and speech in mental illnesses, occupational dysphonias in people working with the voice.						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[LOGMU2_W03] He has the linguistic and speech therapy knowledge to independently program measures to prevent speech disorders for people at risk of developing them.	Has the knowledge to program activities independently preventive measures to prevent voice disorders in people who are at risk of developing them (K_W03).	[SW2] presentation/project/paper/report
	[LOGMU2_U04] Can independently diagnose speech development disorders, language problems, speech disorders and intake difficulties, identify their etiology and program speech therapy according to the disorder, including in the case of complex medical disorders, including neurological disorders.	Is able to diagnose voice disorders and program speech therapy for people with primary other diseases, e.g. neurological diseases (K_U04).	[SU2] presentation/project/paper/report
