

Subject card

Subject name and code	Maritime Transport in Global Supply Chains - Challenges and Development Directions, PG_00151819						
Field of study	Economics, International Economic Relations						
Date of commencement of studies	October 2024	Academic year of realisation of subject			2024/2025		
Education level	postgraduate studies	Subject group			Obligatory subject group in the field of study Optional subject group		
Mode of study	part-time studies	Mode of delivery			e-learning		
Year of study	1	Language of instruction			Polish polish		
Semester of study	1	ECTS credits			3.0		
Learning profile	academic	Assessment form					
Conducting unit	Katedra Polityki Transportowej i Integracji Gospodarczej -> Faculty of Economics						
Name and surname of lecturer (lecturers)	Subject supervisor		dr Dorota Książkiewicz				
	Teachers		dr Dorota Książkiewicz				
Lesson types	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	20.0	0.0	0.0	0.0	0.0	20
	E-learning hours included: 20.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	20		0.0		0.0	20
Subject objectives	The aim of the course is for students to understand the specifics and role of maritime transport in global supply chains. It includes an analysis of the interdependencies of entities in the maritime industry, identification of cooperation opportunities for businesses in the maritime transport sector, and the principles of competition. The course will highlight key market trends with a particular emphasis on technological developments in maritime transport and port operations.						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[MSGMU2_K03] is ready to actively participate in groups, organisations and institutions conducting professional projects concerning the functioning of economic entities in the conditions of globalisation and the development of integration processes	The student is capable of engaging in the activities of organizations that implement projects related to the maritime transport industry.	[SK1] oral statement/conversation/discussion
	[MSGMU2_K05] is ready to initiate actions in the public interest, inspire and organise projects for the benefit of the environment and the international business community, in accordance with the idea of sustainable development and the resulting legal, economic, ecological, political and social requirements	The student can launch initiatives aimed at transforming the business environment of the maritime transport industry.	[SK1] oral statement/conversation/discussion
	[MSGMU2_W05] has an in-depth knowledge of the world economy, principles of global market functioning and international financial relations as well as the process of their evolution; understands the causes, regularities and consequences of occurring changes	The student acquires the knowledge about the functioning of global maritime transport market.	[SW2] presentation/project/paper/report
	[MSGMU2_U03] can identify and analyse relations between business entities and institutions in their national and international environment	The student can discern the relationships among entities involved in the global maritime transport market.	[SU2] presentation/project/paper/report
	[EKONMU2_U08] can independently analyse economic and social phenomena and processes, and can perform a theoretically deepened assessment of such phenomena, using appropriately selected research method	The student is capable of independently analyzing the situation in the maritime transport market.	[SU1] oral statement/conversation/discussion [SU2] presentation/project/paper/report
	[EKONMU2_U05] uses (legal, professional, ethical) normative systems and can effectively solve complex economic and social problems using them	The student understands the legal, industry and ethical conditions related to the maritime transport market.	[SU2] presentation/project/paper/report
	[EKONMU2_W04] knows different types of economic and social ties and regularities governing them; has an in-depth knowledge of economic and financial ties between enterprises	The student acquires the knowledge about interdependencies of entities in maritime industry, including identification of cooperation opportunities and the principles of competition.	[SW1] oral statement/conversation/discussion [SW2] presentation/project/paper/report
	[MSGMU2_U05] can apply the rules and standards of business activity in order to solve complex and atypical problems arising from international economic cooperation	The student can suggest effective solutions to the challenges faced in the global maritime transport market.	[SU1] oral statement/conversation/discussion [SU2] presentation/project/paper/report
	[MSGMU2_W03] knows and understands types of economic ties and the regularities governing them; understands the conditions and principles of the functioning of the market and the market mechanism in the national, international and global aspect	The student understands the principles of international maritime market in both international and global contexts.	[SW1] oral statement/conversation/discussion
	[EKONMU2_W02] has an in-depth knowledge of various types of existing economic entities and organisations as well as an extended knowledge of public institutions	The student acquires the knowledge about various types of enterprises and institutions operating in maritime transport industry.	[SW1] oral statement/conversation/discussion [SW2] presentation/project/paper/report
