

Subject card

Subject name and code	Public presentation of Master's thesis, PG_00153645						
Field of study	Biotechnology						
Date of commencement of studies	October 2024		Academic year of realisation of subject		2025/2026		
Education level	Master's studies		Subject group		Obligatory subject group in the field of study		
Mode of study	full-time studies		Mode of delivery		at the university		
Year of study	2		Language of instruction		Polish		
Semester of study	4		ECTS credits		5.0		
Learning profile	academic		Assessment form				
Conducting unit	UG Institute of Biotechnology -> Intercollegiate Faculty of Biotechnology UG-MUG -> Rector						
Name and surname of lecturer (lecturers)	Subject supervisor		dr hab. Mariusz Grinholc				
	Teachers						
Lesson types	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	15.0	0.0	0.0	0.0	0.0	15
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	15		20.0		90.0	125
Subject objectives	The aim of the course is for the student to present the assumptions and results of the master's project, in the form of a short multimedia presentation in English. In the course of the course, the student demonstrates sufficient knowledge of English to present an oral short study of the issues of the master's project. In the course of the course, the student acquires the ability to use the English scientific language efficiently, uses specialised terminology and conceptual apparatus appropriate to the subject of the conducted research.						
Learning outcomes	Course outcome		Subject outcome		Method of verification		
	[BIOTECHMU2_U04] The graduate is able to use scientific information fluently, including English-language information on biotechnology; analyse and select information critically; use electronic sources; use appropriate databases		Is proficient in the use of scientific information, including English-language information on biotechnology; critically analyses and selects information; uses electronic sources; has the ability to use appropriate databases		[SU1] oral statement/conversation/discussion [SU2] presentation/project/paper/report		
	[BIOTECHMU2_U07] The graduate is able to prepare and present in Polish and/or English an oral presentation covering detailed issues in the field of biotechnology using scientific language, including specialist terminology and conceptual apparatus; conduct discussions		Be able to prepare and present an oral presentation in Polish and/or English covering specific topics in biotechnology using scientific language including specialised terminology and terminology; has the ability to hold a discussion.		[SU1] oral statement/conversation/discussion [SU2] presentation/project/paper/report		
Subject contents	The programme content will be related to the ongoing master's projects						
Prerequisites and co-requisites							
Assessment methods and criteria	Subject passing criteria		Passing threshold		Percentage of the final grade		
	Presentation of the thesis		0.0%		100.0%		
Recommended reading	Basic literature		Academic publications on MSc projects, including publications by the team in which the MSc project is carried out.				

	Supplementary literature	None
