	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	30		21.0		49.0	100
Subject objectives	The aim of the course is to equip the student with knowledge, skills and competences in the field of macroeconomics.						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[ZARZMU2_U01] The student has an in-depth ability to interpret socio-economic phenomena and current events in economic policy and economics, independently formulate his own opinions in this area, and propose adequate solutions in the case of changes occurring in these areas.	The student is able to interpret the market mechanism, the process of creating added value, final production, GDP and other measures of economic growth, as well as the conditions and effects of the monetary and fiscal policy in the context of reducing inflation, unemployment, promoting employment and economic growth against the background of ongoing economic processes and globalization.	[SU1] oral statement/conversation/discussion [SU4] test/exam - oral or written
	[ZARZMU2_W01] The student has an expanded knowledge of the social sciences with particular emphasis on the discipline of management and quality sciences and understands their connections with other social sciences.	The student knows the principles of functioning of market mechanisms, the essence of investment and the determinants of consumption.	[SW4] test/exam - oral or written [SW1] oral statement/conversation/discussion
	[ZARZMU2_K03] The student is aware of the need to identify critical complex problems, including economic and social ones, and to plan ways to solve them under changing and unpredictable conditions.	The student is aware of the need to identify economic problems, defects in the functioning of the market and its mechanisms, problems related to economic growth, inflation, unemployment, monetary and fiscal policy, international exchange and planning ways to counteract negative economic phenomena.	[SK1] oral statement/conversation/discussion [SK4] test/exam - oral or written
	[ZARZMU2_K05] The student is ready to make an in-depth assessment of phenomena and justify his position through rational, logical and entrepreneurial use of knowledge - basing his assertions and decisions on an in-depth analysis of the information he receives.	The student properly analyzes and uses available macroeconomic indicators in economic practice.	[SK1] oral statement/conversation/discussion [SK4] test/exam - oral or written
	[ZARZMU2_W04] The student has an extended knowledge of the enterprise environment, its factors and changes occurring in this area, as well as the relations, significance and influence of the environment and stakeholders on the functioning of the enterprise. The student has expanded knowledge of tools for diagnosing macro- and micro-environment.	The student knows the relationships between enterprises, fiscal and monetary authorities and households in the context of creating GDP, creating economic growth and sustainable development. The student knows extended methods of diagnosing the economic situation in the micro- and macro-environment.	[SW4] test/exam - oral or written [SW1] oral statement/conversation/discussion
