

Subject card

Subject name and code	Basics of biology - lecture, PG_00132593						
Field of study	Criminology						
Date of commencement of studies	October 2025		Academic year of realisation of subject		2025/2026		
Education level	Master's studies		Subject group		Optional subject group		
Mode of study	part-time studies		Mode of delivery		at the university		
Year of study	1		Language of instruction		Polish		
Semester of study	1		ECTS credits		2.0		
Learning profile	academic		Assessment form		credit		
Conducting unit	Katedra Zoologii Bezkręgowców i Parazytologii -> Faculty of Biology -> Rector						
Name and surname of lecturer (lecturers)	Subject supervisor		dr Sławomira Fryderyk				
	Teachers						
Lesson types	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	15.0	0.0	0.0	0.0	0.0	15
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	15		0.0		35.0	50
Subject objectives	1 To learn the fundamentals of the structure, biology and classification of living organisms. 2 To understand the biological processes that determine life at different levels of its organisation. 3. To be able to recognise and classify different groups of organisms.						
Learning outcomes	Course outcome		Subject outcome		Method of verification		
	[KRYMMU2_WG01] Has an in-depth knowledge of the nature of legal and related penal sciences, their place in the system of sciences and their interrelationships		The graduate explains basic concepts in biology, presents the structure and functional relationships at the cellular, tissue, organ and organism levels; describes biological phenomena occurring in nature, characterises selected groups of organisms and presents their evolution.		[SW4] test/exam - oral or written		
	[KRYMMU2_WG03] Has an enhanced knowledge of the subject matter of the regulation of individual branches of law related to the studied major		The graduate recognises the dynamic development of biological sciences and the emergence of new fields and research disciplines, including those related to the field of study.		[SW4] test/exam - oral or written [SW1] oral statement/ conversation/discussion		
	[KRYMMU2_KK01] Is aware of the level of his knowledge and skills, and understands the need for lifelong learning		The graduate is aware of the level of their knowledge and skills, and understands the need for lifelong learning		[SK1] oral statement/conversation/ discussion		
Subject contents	Nomenclature, criteria for classification of living organisms. Biology of the cell. Basics of classification of living organisms. Characteristics of Procaryota, Eucaryota (Protista, Fungi, Plantae, Zoa). Selected topics in ecology and biogeography. Developmental biology. Main issues of genetics and general mechanisms of evolution. Selected topics in anthropology and ethology.						
Prerequisites and co-requisites							
Assessment methods and criteria	Subject passing criteria		Passing threshold		Percentage of the final grade		
	written assessment (test and open questions)		51.0%		100.0%
