	Number of study hours	0.0	10.0	0.0	0.0	0.0	10
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	10		0.0		40.0	50
Subject objectives	To familiarize students with the basic regularities of the functioning of emotional and motivational processes. Students will develop a basic network of theoretical concepts used in psychology to describe and analyze a person's behavior, feelings and experiences, which allow them to understand and explain the reasons for specific behavior in a given social and situational context. Students will learn to use knowledge from the field of general psychology to describe, analyze and explain disordered, asocial and antisocial behavior.						
Learning outcomes	Course outcome		Subject outcome		Method of verification
