

Subject card

Subject name and code	The impact of space design and development on local safety - lecture, PG_00131570						
Field of study	Criminology						
Date of commencement of studies	October 2025		Academic year of realisation of subject		2027/2028		
Education level	Bachelor's studies		Subject group		Optional subject group		
Mode of study	full-time studies		Mode of delivery		at the university		
Year of study	3		Language of instruction		Polish		
Semester of study	5		ECTS credits		3.0		
Learning profile	academic		Assessment form		credit		
Conducting unit	Faculty of Law and Administration -> Rector						
Name and surname of lecturer (lecturers)	Subject supervisor		dr Mariusz Szatkowski				
	Teachers						
Lesson types	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	30.0	0.0	0.0	0.0	0.0	30
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	30		0.0		45.0	75
Subject objectives	The aim of the course is to familiarize students with the system of spatial planning and land use, as well as with the capacity of planning and land-use instruments (in particular, local spatial development plans and local revitalization plans) to support the building of local security by public administration authorities. Achieving this objective will involve the analysis of both the legal framework of spatial management and urban planning methods and techniques.						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[KRYML3_WG03] Has advanced knowledge of the facts, concepts and relationships between selected phenomena related to the problems of the criminal act, including key social and psychological phenomena relevant to the context of the studied direction.	analyzes complex relationships between spatial organization and the level of local security, identifies the influence of social, urban, and environmental factors on phenomena conducive to crime, and is able to indicate how spatial planning and land use can help prevent unlawful acts and strengthen the sense of social safety.	[SW4] test/exam - oral or written [SW2] presentation/project/paper/report
	[KRYML3_UU03] In an advanced degree, is able to independently acquire knowledge and develop his professional skills, using a variety of sources (in the native and foreign language) and modern technologies, and appropriately select and apply the appropriate methods and tools of the criminologist's work.	independently searches for and analyzes information concerning the impact of spatial planning and land-use management on local safety, using scholarly literature, legal acts, planning documents, statistical data, and maps — including those in foreign languages and through the use of modern digital tools.	[SU2] presentation/project/paper/report [SU5] implementation of a problem task [SU8] observation of student's independent or team work
	[KRYML3_WG04] Has advanced knowledge of the role of state bodies in counteracting socio-pathological phenomena, especially crimes, the internal structure of these bodies and their competencies	knows and understands the role of public administration bodies in shaping local spatial policy with regard to counteracting socially pathological phenomena, particularly crime; identifies the legal and organizational framework of their actions and analyzes their competences in the context of strengthening local security through spatial planning and land-use instruments.	[SW4] test/exam - oral or written [SW2] presentation/project/paper/report
Subject contents	Introductory classes The concept of local safety The importance of spatial planning and land-use management for local safety Urban planning perspective Structure of the spatial planning and land-use management system The role of the municipality in the spatial planning and land-use management system Legal nature, editorial form, and functionality of the local spatial development plan and the local revitalization plan Scope of statutory authorization for adopting a local spatial development plan and its relevance to local safety Scope of statutory authorization for adopting a local revitalization plan and its relevance to local safety Workshops on planning document design
