

Subject card

Subject name and code	Interpersonal communication, PG_00051250						
Field of study	Chemistry						
Date of commencement of studies	October 2025		Academic year of realisation of subject		2026/2027		
Education level	Master's studies		Subject group		Obligatory subject group in the field of study Humanistic-social subject group		
Mode of study	full-time studies		Mode of delivery		at the university		
Year of study	2		Language of instruction		English		
Semester of study	3		ECTS credits		1.0		
Learning profile	academic		Assessment form		credit		
Conducting unit	Faculty of Social Sciences -> Rector						
Name and surname of lecturer (lecturers)	Subject supervisor		dr Grzegorz Kapuściński				
	Teachers						
Lesson types	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	15.0	0.0	0.0	0.0	0.0	15
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	15		2.0		8.0	25
Subject objectives	The aim of the course is to present the complexity of selected issues regarding basic knowledge about interpersonal communication. Students learn about the practical skills of presenting their opinion correctly and actively listen, see and overcome various communication barriers, and skilfully limit their impact on mutual contacts.						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[CHEMMU2_U11] Communicates in English in accordance with the requirements specified for level B2 of the Common European Framework of Reference for Languages.	He can perceive and address conditions and differences cultural in communication.	[SU1] oral statement/conversation/discussion [SU3] text preparation/written work [SU4] test/exam - oral or written
	[CHEMMU2_U09] Has deepened ability to prepare various forms of oral presentations on chemistry in Polish and English.	He has in-depth skills preparation of various forms oral presentations according to the rules effective and ethical interpersonal communication	[SU1] oral statement/conversation/discussion [SU3] text preparation/written work [SU4] test/exam - oral or written
	[CHEMMU2_W13] Demonstrates knowledge of legal and ethical conditions related to scientific and didactic work.	Undertakes and conducts communication aware of it in various areas ethical conditions, z taking it into account professional conditions.	[SW4] test/exam - oral or written [SW1] oral statement/conversation/discussion [SW3] text preparation/written work
	[CHEMMU2_U06] Presents the results of scientific discoveries in chemistry and related disciplines in an understandable way.	Able to present and lead discussion on scientific topics in interpersonal context in based on the current state of knowledge, scientific discoveries and research results own in the field of science chemicals and disciplines related.	[SU1] oral statement/conversation/discussion [SU3] text preparation/written work [SU4] test/exam - oral or written
	[CHEMMU2_W14] Explains the basic concepts and principles in the field of industrial property and copyright protection and recalls knowledge about the management of intellectual property resources; is able to use patent information.	Having knowledge and awareness communication conditions with particular emphasis on interpersonal context explains basic concepts and protection rules industrial property, law copyright, management intellectual property resources and patent information.	[SW4] test/exam - oral or written [SW1] oral statement/conversation/discussion [SW3] text preparation/written work
	[CHEMMU2_U07] Defines and implements the directions of own further education.	Defines and implements directions your further education using knowledge of the subject human communication, with special attention interpersonal context.	[SU1] oral statement/conversation/discussion [SU3] text preparation/written work [SU4] test/exam - oral or written
	[CHEMMU2_K05] Understands the need for independent search of information in scientific literature and popular science magazines.	Understanding the need self-search information in scientific literature and magazines popular science, he can use knowledge about interpersonal communication.	[SK1] oral statement/conversation/discussion [SK3] text preparation/written work [SK4] test/exam - oral or written
Subject contents	Verbal and non-verbal communication The concept, types and levels of communication, scope of interpersonal communication Principles of effective communication from the position of the sender and the recipient Barriers to communication Gender, social and cultural differences in interpersonal communication Communication without violence		
Prerequisites and co-requisites			
Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
	test	51.0%	100.0%
