

Subject card

Subject name and code	Innovative spatial management: a glimpse into the future, PG_00165853						
Field of study	Land Management						
Date of commencement of studies	October 2025		Academic year of realisation of subject		2025/2026		
Education level	Master's studies		Subject group		Obligatory subject group in the field of study		
Mode of study	full-time studies		Mode of delivery		at the university		
Year of study	1		Language of instruction		Polish		
Semester of study	2		ECTS credits		1.0		
Learning profile	academic		Assessment form				
Conducting unit							
Name and surname of lecturer (lecturers)	Subject supervisor		dr Grażyna Chaberek				
	Teachers						
Lesson types	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	10.0	0.0	0.0	0.0	0.0	10
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	10		15.0		10.0	35
Subject objectives	Providing students with opportunities to discuss with practitioners in the field of spatial management, familiarising them with innovative solutions to problems in spatial planning and development currently used in practice, and familiarising them with the latest achievements of practitioners and scientists in the field of spatial planning and development.						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[GPMU2_W06] problems and theories in spatial management, taking into account complex dependencies and trends of changes in the natural environment; understands their theoretical and practical significance	explains the practical significance of theories and trends in solving problems in spatial planning and development based on knowledge of the experiences of businesses, local governments and/or institutions	[SW1] oral statement/ conversation/discussion [SW3] text preparation/written work
