	[ADMINL3_UO06] The student is able to plan and organize his work and is prepared to actively participate in teams involved in the implementation of administrative activities.	Taking into account economic aspects, including labor costs, student is able to efficiently organize his own work and that of the teams he manages. Is able to take into account the broader economic context when implementing administrative goals.	[SU3] opracowanie tekstowe/praca pisemna
	[ADMINL3_WK04] The student knows and understands the current dilemmas regarding the functioning of institutions of substantive and procedural law in the sphere of the state and administration. Additionally, he identifies key phenomena occurring in the market economy and economics, including knowledge and understanding of the basic principles of public finance, EU structural funds, the public procurement system, and the operation of various forms of entrepreneurship.	The student knows and understands in which aspects of the functioning of the state and the application of law they intersect with economic knowledge and reality. They know and understand how the functioning of the state in a market economy, in particular the shape and objectives of public finances, should take into account the achievements of economics.	[SW3] opracowanie tekstowe/praca pisemna
	[ADMINL3_KK01] The student is aware of the role of knowledge in problem-solving, is prepared to critically evaluate positions regarding the functioning of administration and the content of legal norms, and to rely on expert knowledge – including the views of legal doctrine and jurisprudence – in situations that exceed the scope of independent problem-solving.	The student is aware of the important role that economic knowledge plays in the proper functioning of state administration. They know where to look for answers to problems with an economic element. They know the limits of their knowledge beyond which they should seek the support of experts.	[SK3] opracowanie tekstowe/praca pisemna
