

Subject card

Subject name and code	Recycling of space - lecture, PG_00133398						
Field of study							
Date of commencement of studies	October 2025		Academic year of realisation of subject		2026/2027		
Education level	Bachelor's studies		Subject group		Obligatory subject group in the field of study		
Mode of study	full-time studies		Mode of delivery		at the university		
Year of study	2		Language of instruction		Polish		
Semester of study	3		ECTS credits		2.0		
Learning profile	practical		Assessment form		exam		
Conducting unit	Faculty of Law and Administration -> Rector						
Name and surname of lecturer (lecturers)	Subject supervisor		dr hab. Jakub Szlachetko				
	Teachers						
Lesson types	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	30.0	0.0	0.0	0.0	0.0	30
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	30		0.0		20.0	50
Subject objectives	The aim of the course is to familiarise Students with the concept, meaning and functions of space recycling, which is one of the basic actions to ensure sustainable land management, as well as to familiarise Students with tools for implementing land reuse for new functions.						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[ADMINL3_KO02] The student is aware of the necessity to take actions that protect the public interest, social interest, and legitimate individual interests of individuals.	The student understands the necessity of undertaking actions that protect public and social interests in spatial management processes. The student is able to consider and respect legitimate individual interests in the context of administrative activities related to spatial recycling.	[SK1] oral statement/conversation/discussion
	[ADMINL3_UW01] Using his own knowledge and sources of information, including the ability to use modern digital techniques and professional methods of acquiring information, the student is able to analyze and resolve problems, as well as interpret legal, social, and political phenomena within the scope of administration and selected areas of social and economic life.	The student is able to use modern digital techniques and professional methods of information gathering to analyze problems related to spatial recycling. The student can interpret and resolve legal, social, and political issues concerning administration and the transformation of space within the context of social and economic life.	[SU1] oral statement/conversation/discussion
	[ADMINL3_WK04] The student knows and understands the current dilemmas regarding the functioning of institutions of substantive and procedural law in the sphere of the state and administration. Additionally, he identifies key phenomena occurring in the market economy and economics, including knowledge and understanding of the basic principles of public finance, EU structural funds, the public procurement system, and the operation of various forms of entrepreneurship.	The student knows and understands current issues of substantive and procedural law and their application in public administration related to spatial management. The student understands the functioning of various forms of entrepreneurship and their role in revitalization and spatial recycling processes.	[SW1] oral statement/conversation/discussion [SW2] presentation/project/paper/report
	[ADMINL3_WG03] At an advanced level, the student identifies and understands the legal and administrative conditions of various forms of social and economic life, including the rights and obligations of individuals towards other individuals and state authorities.	The student knows and understands the legal and administrative conditions related to the transformation of space as well as the functioning of various forms of social and economic life in this context. The student is able to identify the rights and obligations of individuals towards other entities and state authorities in the context of administrative actions concerning spatial recycling.	[SW1] oral statement/conversation/discussion
